WEO	:Welfare Extension Officer

CHAPTER-I

1. SOCIO ECONOMIC PROFILE

1.1-Administrative Set Up: Gajapati District has been named after Maharaja Sri Krushna Chandra Gajapati Narayan Deo, the Ex-Raja Sahib of Paralakhemundi estate (the 1st Prime Minister of Odisha State), who is remembered for his contribution in formation of a separate Odisha province and inclusion of Paralakhemundi estate in Odisha. It got a District status on 2nd October 1992 after bifurcated from Ganjam District. It was Paralkhemundi sub-division in Ganjam and yet it is only sub-division in Gajapati. There are 7 Blocks, 11 Police stations, 7 Tahasils, 44 RI Circles, 149 Gram Panchayats & 1636 Villages in Gajapati district.

Sl. No.	Name of the Sub-Division	Name of the Block/ ULB	No. of Gram Panchayats	Total number of inhabited villages in the C. D. block/ Wards	Name of the Tahsils	No. of RI Circles

Source- Census 2011 & PS Sources

Covering an area of 4325 sq km, Gajapati District lies between 180.6' to 190.39' North Latitude and 830.48' to 840.08' East Longitude. Climatic condition in the

Gajapati District Disaster Management Plan-2022-23

Gajapati District varies between 16 degree to 40 degree Celsius and the normal rainfall received is 1403.30 mm. The District is surrounded by Andhra Pradesh in its South, Ganjam District in its East, Rayagada in its West and Kandhamal in its North. The soil and climate is suitable for plantation of crops and there is a great potential of horticulture development in the District. More than 60 percent of lands are situated in hilly terrain and high lands. Those are mainly suitable for horticulture. Other cultivable land are coming under medium lands (20 percent) and low lands (15 percent) category.

Gajapati District gains a large amount of its revenue through the agricultural sector. Also agro-processing and horticulture industries add to the economic wealth of this region. Economy of Gajapati District is agrarian in character. Except a few agro-processing units, there is no major industry in the District. However, some activities of cottage industries like Horn work, Jaikhadi bag, Cane and bamboo work, Ganjappa card and Pattachitra mukha, Broom work and Siali leaf plate making and Tibetan Woolen Carpet contribute to the economy of the District.

Jagannatha Narayana Deo (freedom fighter), Apanna Parichha (freedom fighter), Pandit Jugal Kishore Panigrahy (freedom fighter), Kabiraj Hari Krushna Purohit (poet), Madhu Tripathy (poet), Lalit Kumar Adhikari (body builder), Krushna Srichandan (poet/ dramatist), Hari Krushna Maharana (artist/painter), Chaitanya Rajaguru (poet/ astrologer), Nilamani Panigrahy (astrologer), Gourachandra Gajapati Narayan Deo (royal member) and Sri Krushna Chandra Gajapati Narayan Deo (royal member) are famous personalities born in Gajapati District.

Gajapati District experiences many fairs and festivals round the year. Ratha Yatra, Dusherra, Kumar Purnima, Thakurani Yatra, Pongal are the famous festivals celebrated here with much pomp and gaiety.

CHAPTER-3

3. Vulnerable Villages and Other Critical Infrastructure

Hazard, Vulnerability and Risk Assessment

Odisha is vulnerable to multiple natural hazards. Due to its sub-tropical littoral location, the state is prone to tropical cyclones, storm surges and tsunamis. It has a 480 km coastline. There are eleven major river systems in Odisha such as the Subarnarekha, the Budhabalanga & Jambhira, the Baitarani, the Brahmani, the Mahanadi, the Rusikulya, the Vansadhara, the Nagabali, the Indravati, the Kolab, and the Bahuda. Its densely populated coastal plains are the alluvial deposits of its river systems. The rivers in these areas with heavy load of silt have very little carrying capacity, resulting in frequent floods, only to be compounded by breached embankments. About two-third of the total cultivated area being rain-dependent, drought poses a serious threat at regular intervals due to failure of Monsoon. Though a large part of the state comes under Earthquake Risk Zone - II (Low Damage Risk Zone), the Brahmani - Mahanadi graven and their deltaic areas come under Earthquake Risk Zone - III (Moderate Damage Risk Zone) covering 43 out of the 103 urban local bodies of the state. Apart from these, loss of life due to lightning has remained the highest of all natural calamities over the last decade. Heat-wave conditions during summer months also lead to heat-stroke death and other suffering to the people. Fire accident is common in the State which occurs round the year.

The table below indicates the incidence of major disasters in the State during last 20 years

Year	Calamity	Districts Affected
1993	Floods	27
1994	Floods	5
	Drought	10
1995	Floods & cyclone	23
1996	Drought	28
1997	Drought	16

Gajapati District Disaster Management Plan-2022-23

CHAPTER-4

DISASTER HISTORY

History of Gajapati Riots:

Dec 1998 : 5000 activists belonging to Hindutva forces attacked a Christian area, Ramagir-Udayagiri, near Ranalai village in Gajapati district, setting fire to 92 homes, a church, a police station and a government vehicle. Earlier that day, Sangh Parivar activists entered the local jail forcibly and burnt and killed two Christian prisoners.

Jun 2005: Motivated by the Hindutva activists, 268 persons from 19 villages in Gajapati district filed a public interest litigation. The Petition argued that the missionaries were forcing conversion to Christianity in the area. The Orissa High Court instructed that charge sheets be filed immediately and cases registered invoking Sections 3,4 and 5 of the Orissa Freedom of Religion Act. The division bench of the High Court directed the district magistrates to act strongly against conversions to Christianity.

CHAPTER-5

PROPOSED CONTINGENCY PLAN FOR GAJAPATI DISTRICT

CONTINGENCY PLAN FOR HEAT-WAVE

Heats wave a complex phenomenon resulting from a certain combination of temperature, humidity, air movement and duration. Simply stated, a heat wave is an extended period of very high summer temperatures with the potential to adversely affect communities. The Gajapati district experiences heat wave condition every year during April to June.

HEAT WAVE DANGERS AND EFFECTS:

- Human Effects:

The body responds to this stress progressively through five stages:

- *Heat cramps*: It can occur to a person engaged in physical work during conditions of high temperature and humidity.
- *Heat Syncope*: The person suddenly falls down, the blood pressure become low, the heart beat rate slows down and the patient faints.
- *Heat exhaustion*: The person may be quite thirsty, weak, start having headache and feel fatigue with rise of temperature.
- *Heat hyperpyrexia*: The body temperature rises above above 106 degree and the patient is semiconscious.
- *Heat stroke*: This is very high body temperature, which may rise to 110 degree F and profound central nervous system disturbances including delirium.

- Agriculture;

Animals do suffer the same way as human do, particularly when left without shade and adequate water. During heat waves, especially in times of drought, livestock losses can be very high. Plant crops and vegetables are also subject to the effects of the heat. The damage to the standing crops is a common feature during such events.

- Infrastructure:

In heat waves the Railway lines can expanded to the point where they buckle and cause derailments of trains. Road damage can also occur, where bitumen melting and concrete expanding and cracking occur. This may lead to disruption of traffic.

- Utilities and services:

Water and electricity consumption services increase rapidly during severe heat conditions, often causing shortages. This causes extra demands on electricity and water supplies.

Gajapati District Disaster Management Plan-2022-23

To reduce the impact of Heat wave, following issues should be emphasized;

1. To increase awareness on heat wave among the General Public.
2. Proper Drinking water supply management.
3. Proper Medical arrangements starting from PHCs to S.C.B. Medical College.

PREPARATION OF CONTINGENCY PLAN

All concerned departments, BDOs & Tahasildars as well as CDMO, CDVO, Executive Engineers RWSS & PHD have prepared their contingent plan to manage heat-wave condition.

FUNCTIONING OF CONTROL ROOM

- Control Room shall function at District Office, Tahasil Offices, Block offices, C.D.M.O's Office, Municipalities, NACs, EE, RWSS & PHD Offices & other line Deptt. Offices connected with management of heat wave are most important aspect for collection and dissemination of heat wave situation.
- All concerned officials are directed to furnish their control room Tel no. to the District Office and name of the Nodal Officer, in-charge of Control Room.
- District Control Room will function with Tel. no. 06815 222943 /1077(Toll Free)
- All concerned Deptt. especially CDMO, RWSS & PHD should submit daily situation report to the District Control Room by 5pm every day. After compilation of the report the same shall be sent to Rev. Deptt. & S.R.C, Orissa.

DISSEMINATION OF HEAT WAVE WARNING & PUBLIC AWARENESS CAMPAIGN.

- Warning on Heat wave would be flashed through Doordarshan, All India Radio (AIR) and other Local electronic and print Media.
- DIPRO will take steps for wide public awareness through leaflets and posters available in emergency section.
- On receipt of warning message from IMD/ Rev. Control room through District Control Room the DIPRO shall make the general public alert by using local media.

MEDICAL ARRANGEMENTS

- The CDMO will issue a set of 'Dos' & Don'ts for heat Wave.
- The Chief District Medical Officer and Superintendent SCB Medical College to make special arrangements for cooling of hospital rooms.
- A special ward for treatment of Heat wave patients shall be opened in SCB Medical College & other Hospitals as well as in CFHs and PHCs under the administrative control of CDMO, Gajapati. Water coolers, fans and Generators should be arranged.
- Life savings medicines, Ice packs and Saline (ORS) should be stored in dispensaries, PHCs, CHCs, Sub Divisional & District headquarter hospitals.

Gajapati District Disaster Management Plan-2022-23

- The DSWO & CDMO shall jointly ensure availability of ORS and its use up to Anganwadi Centers.
- The CDMO to ensure presence of Doctors & Para Medical staff in all PHCs & C.H.Cs during this period from 11AM to 4 PM every day.
- Ambulances should be kept in good running condition for shifting of heat stroke patients.
- Where no ambulance is available the PHC vehicle as well as Janani Surakhya Express shall be used for carrying the heat wave affected persons.
- Hiring of vehicle can be done wherever is required
- Arrangements like Water Cooler/Fan etc may be made at CHC and other Sub-divisional hospitals.

DRINKING WATER SUPPLY MANAGEMENT

Gajapati District Disaster Management Plan-2022-23

- Executive Engineers PHD, RWSS to intimate the status of running and defunct tube wells on a weekly basis to District Emergency control room.
- Immediate Measures to be taken for repair of defunct tube wells
- All complaints regarding repair of tube wells must be attended within 48hrs and emergency arrangements be made for uninterrupted supply of drinking water in the scarcity pockets.
- Sufficient no. of water tankers should be mobilized to meet the situation arising out of breakdown of normal drinking water supply system at water scarcity pockets.
- 108 nos of 'Jalachhatra' will be decided to open at strategic locations inr Gajapati city.
- The Gram Panchayats to open "JALACHHATRA" at public congregation places out of their own funds. The DPO & BDOs to ensure it.
- The BDOs may request the NGOs to open "JALACHHATRA".
- The BDO & the JE / AE RWSS shall seat on every Thursday in the block and discuss regarding the water scarcity in their block and submit a weekly status report to District office.

RESCHEDULING OF TIMING IN EDUCATIONAL INSTITUTION

- Necessary measures must be taken to prevent exposure of students to intense heat.
- Timing of regular class & examinations are required to be rescheduled from 6.30 AM to 10.30 AM.
- Special arrangements for drinking water should be made in educational Institutions.
- The C.I of school to issue instructions to all Schools including the Private English medium schools to reschedule school timings. The all Examination of all School must be completed by the end of April.
- No school shall run in the month of May.

RESCHEDULING OF WORKINGHOURS FOR LABOURS/WORKERS

Gajapati District Disaster Management Plan-2022-23

- The District Labour Officer has already issued instructions to the Executive Agencies for reschedule of working hours for the labours to avoid exposure of labour/workers to heat during peak heat hours i.e 11.00 AM to 3.30 PM.
- Executive Agency to make adequate arrangements of drinking water, rest shed and provision of emergency aid (ORS packets) at the work sites.
- The P.D, DRDA & BDOs to ensure rescheduling of working hours for Labour Intensive Works.

VETERINARY MEASURES.

- The Chief District Veterinary Officer to circulate a set of 'Dos' and 'Don'ts to alert the general public about upkeep of domestic animals.
- Arrangements should also be made for emergency treatment of Animals affected by heat wave in the veterinary dispensaries and hospitals. The water scarcity zones have been identified and the proper arrangement has been made for providing drinking water for animals.
- Local VAS and LIs are being instructed to look the matter personally.
- In each Veterinary Institution temporary treatment shed will be constructed on priority basis to provide immediate treatment to heat stroke affected animals.
- The VAS are instructed to visit the cattle market frequently in market days for emergency treatment of cattle.
- Vehicle having life saving drugs and Ice water sprayers are available for immediate treatment of sun stroke affected animals.
- It was instructed to take immediate action to install the Vats for cattle in different places of each Block by the end of March, 2013.
- The CMC Authority will take action to make temporary thatched sheds for the Deer in the Deer Park in Gajapati.
- It was also instructed to draw up awareness programme to make the public aware not to leave their cattle to the out side and also not to plough in the field during peak hours of the day time

Gajapati District Disaster Management Plan-2022-23

DEATH DUE TO SUNSTROKE

- Tahasildars should report cases of death due to sunstroke immediately to the District Office.
- A joint enquiry by local Tahasildars/Additional Tahasildars, Medical Officer designated by Chief District Medical Officer & OIC/IIC of the concerned P.S should be undertaken to assess the exact cause of death on the basis of circumstantial/clinical evidences.
- The report should definitely reach the District Office within 24hrs. of the death for onward transmission to SRC & Govt.
- The S.P, Gajapati & CDMO to issue instructions to all OICs/ IICs & Medical Officers to extent full cooperation to the Tahasildars for this purpose.
- Ex-gratia amounting to Rs 10,000/- is to be sanctioned and paid to the NOK of the deceased died due to Sunstroke out of Chief Minister Relief Funds as per letter received from SRC Odisha vide letter no2304/SR dt. 25.08.2012 ,

Resheduling/timing of Local Transport

- The RTO was instructed to ensure availability of drinking water with Ice bags, ORS Packets in all buses plying during daytime.
- Over loading and passengers sitting on the roof of the bus shall be strictly prohibited and will be monitored by the Enforcement squad.
- First-Aid box containing essential medicines for Heat wave must be kept in all buses
- Sufficient water should be stored at Bus stands and Bus stoppages.
- Change in Bus timings shall be considered if the situation demands
- As per the decision taken in the state level meeting last year drinking water &ORS must be kept in the buses & bus Stands for this period.
- RTO to take necessary steps in this regard after discussion with Bus owners association.
- During severe heat wave conditions timing of Public transport services shall be rescheduled by RTO, Gajapati.

Gajapati District Disaster Management Plan-2022-23

Other Measures

- If situation demands, the Cinema halls would be prevailed upon to stop movie shows during noon hours.
- The DGM, CESCO to ensure uninterrupted power supply during summer months. The CESU authorities to make alternate arrangements for uninterrupted power supply during this summer.

The Executive Engineers of the Irrigation divisions shall release water in the canals regularly to tackle water scarcity in rural areas.

Gajapati District Disaster Management Plan-2022-23

CONTINGENCY PLAN FOR FLOOD

FUNCTIONING OF CONTROL ROOM (Paragraph 10 & 47 of ORC)

Control Room is functioning in District Office with telephone No. 06815 222943/1077 from 7. A.M to 10 P.M. with the effect from 1.03.2017 and the same will continue till 30.11.2021. Control Rooms are also functioning in the Offices of the Tahasildars/Block Development Officers and in other District Level Officers. Control Room will function round the clock in case of necessity.

CONSTITUTION OF FLOOD CIRCLES AND ZONES (Paragraph 51 of ORC)

Flood circle zones have been formed in all Blocks under the supervision of concerned BDOs. Each zones is again be sub-divided into sub-zones (Gram Panchayats) and will be kept in charge of ABDO/ VLWs/ R.Is / Extension Officers.

The Sub- Collectors shall review it in every week.

BDOS – Zone Officers of respective Blocks

Tahasildars – Addl. Zone Officers of respective Tahasils

GP Extension/Executive Officers – Sub Zone Officers of respective GPs

The Circle/Zone officers will be responsible for successfully carrying out the pre-calamity arrangements and post-calamity relief measures as indicated below.

- * Transmission of message on the calamities to the proper quarters i.e. Sub- Collector and Collector.
- * Rescue operation, evacuation and shelter to people evacuated at safer places, arrangement of boats.
- * Distribution of Emergent Relief and G.R
- * Recovery, identification and cremation of dead bodies after inquest and disposal of carcass.
- * Supply of drinking water.
- * Clearance of debris and road communication.
- * Public relation and attending to VIPs. and supply of information.
- * Collection of statistics on damage to public properties, crops, casualties, etc.

Gajapati District Disaster Management Plan-2022-23

Information on Available boats -GHAT WISE, Kashinagar Block/River Vansadhara

11	NAC-Kashinagar to Talada(Andhra Pradesh)	Yes	Manual	Occassionally	15 to 20

11. WEAK / VULNERABLE POINTS (Paragraph 48 of ORC)

Already the weak/vulnerable points identified on the embankments of different rivers flowing in the District, the list of which is shown in the DDMP vide Chapter-VI. Executive Engineer, Mahanadi (South) Division/Mahanadi (North) Division/Prachi Divn./Khurda Division/KendraPara Division have prepared contingent plans to combat the possible flood during 2012 along with detailed provision for keeping sufficient flood fighting materials like sand bags, bamboos and bamboo mats etc, at the weak points.

Gajapati District Disaster Management Plan-2022-23

Criteria for the vulnerable points

Embankment at a specified reach/point having less free board i.e. less than 1.20 mtr in case of Capital Embankment, other Agricultural Embankment and saline Embankment and 0.90 mtr in case of Test Relief Embankment.

Where the embankments are below the standard section as communicated by the chief Engineer & Basin Manager, Lower Mahanadi Basin vide letter No.13377 (we) dt.20.10.2001 of Engineer-in-chief, Water Resources.

The places where the river touches the embankment.

The river embankments have been divided into readiness and each breach has been kept in charge of an Assistant Engineer/ a Junior Engineer.

RAIN RECORDING AND SUBMISSION OF RAINFALL REPORTS (Paragraph 49 of O.R.C.)

Rain recording stations are available in all the blocks of this district has a rain recording station in the same headquarters. The Head Clerks of the Blocks are acting as Rain Recording Officers under the supervision of the respective Block Development Officers.

The rainfall reports from each rain recording station shall be transmitted to the District Control Room daily through V.H.F./Telephone/Messenger.

GAUGE READING (Paragraph 50 of O.R.C.)

The gauge reading stations of different rivers are available at different places in the district as shown in Chapter- II. The gauge readings at (i) Kashinagar (River Vansadhara) and ii. Paralakhemundi at Pathapatnam road (River Mahendra Tanaya) will be transmitted by the flood control cell of the District Control Room every hour when the gauge reading is near or above danger level. When the gauge reading is fairly below the danger level, the same will be transmitted once a day by 5 P.M., Gauge readings at the above Gauge stations shall be communicated to the Revenue Control Room through phone/Fax from the District Control Room.

DISSEMINATION OF WEATHER REPORTS, FLOOD BULLETIN ETC. (Paragraph 52 OF O.R.C.)

Immediately on receipt of weather warnings and bulletin above high flood from IMD ,Bhubaneshwar or from the Revenue Department/ Special Relief Commissioner, the same shall be communicated to the superintendent of Police. The Executive Engineers of the Water Resources Department, DC, CMC, the Sub-Collectors, Executive Officers of

Gajapati District Disaster Management Plan-2022-23

U.L.Bs., Tahasildars and Block Development Officer who shall without loss of time disseminate the messages among the people through their respective agencies and caution them so that they will be in readiness to shift to flood shelters or other safer places in the event of high floods. The people, will also be asked to refer to the special weather/flood bulletin of T.V./Radio during such periods.

STORAGE OF FOODSTUFF IN INTERIOR AREAS (Paragraph 57 of O.R.C.)

To ensure that food grains/foodstuff are available in the interior areas which are likely to become inaccessible during flood, Civil Supplies Officer, Gajapati, has already kept 400qtls quintals of rice and 4000 ltrs liters of K.Oil at the following points of this District. Other dry foods like chuda, mudhi, gur, bread, and other necessities like candle, match box etc, will be arranged immediately for distribution among the marooned people in the event of high floods or cyclones.

It is proposed to keep food and kerosene oil at different strategic locations of Gajapati District as given below:.

Sl no	Block	Gram Panchayats	Nameof the inaccessible Pockets	Item of relief material to be stored		
				Rice (Qtl)	K oil	
1	Mohana	Guluba	Guluba	100	1000	
2	Nuagada	Sambalpur	Sambalpur	50	500	
3	Rayagada	Gangabada	All villages of Gangabada	50	500	
			Karadasingi	Tudumulu	50	500
				AnchulaBurgi		
				Kalamisingi		
		S Kalmasingi				
		Sanatundi	Rampi	50	500	
			Badatundi			
			Tubursingi			
Sanaundi						
4	Gumma	kujasing	kujasing	50	500	
5	Kashinagar	Khandaba	Khandaba	50	500	
				400	4000	

Gajapati District Disaster Management Plan-2022-23

The CSO, Gajapati to be instructed to ensure that, incase no natural calamity occurs this year, the above stock shall be utilized in Normal P.D.S as per relief code. Further, The CSO, Gajapati to make arrangements for keeping the rice & K.oil at the places mentioned above by the 2nd week of June. The CSO may also be asked to assess the availability of dry food like CHUDA & GUR in sufficient quantity at Kashinagar, Gajapati and other places of the District for distribution of the same among the marooned people in the event of any eventuality. Apart from this, the rice available with BDOs & G.Ps under different schemes shall be utilized during Flood, which will be recouped latter after receipt from SRC, Orissa.

SELECTION OF FLOOD SHELTERS (Paragraph 60 of O.R.C.)

In the flood prone areas, buildings belonging to Government, educational institutions etc. have been selected for providing immediate shelter to the people on evacuation from the flood-affected areas. In case of an emergency, temporary flood shelters shall also be constructed with bamboos, tarpaulins etc. School cum Cyclone Shelters are already constructed and handed over to the concerned school authorities by the Government. These can also be used as Shelter places. The detail list is in the previpuse chapter. Similarly, BDOs of the district heve been already been identified the school –cum –shelter places under their jurisdiction to provide shelter to the people on evacuation from the flood-affected areas.

ORGANISATION OF RELIEF PARTIES FOR RESCUE AND RELIEF OPERATION (Paragraph 60 of O.R.C.)

In the event of floods, it will be necessary to rescue marooned people and distribute emergency relief to the people affected by the calamity. For smooth management of rescue and relief operation, the Sub-Collectors have been instructed to constitute Relief Parties in advance indicating their area of jurisdiction. The employees of the local Government offices shall be included in such relief parties. NGOs will also be involved in the programmed.

ARRANGEMENTS FOR ARMY ASSISTANCE (Paragraph 61 & 69 of O.R.C.)

In case of severe and wide spread calamity, the assistance of army personnel may be necessary for relief and rescue operation. In such contingency, necessary arrangements shall be made to requisition the army to assist the civil authorities through Special Relief Commissioner / Government following the procedure laid down under Paragraphgraph 61 and 69 of the Orissa Relief Code.

DISTRIBUTION OF DUTIES TO THE OFFICERS AT THE DISTRICT HEAD QUARTERS

For the purpose of supervision of relief and rescue operation in the event of any natural calamity, the distribution of the area among the senior officers of the district administration will be made:

Gajapati District Disaster Management Plan-2022-23

DAILY REPORTING OF FLOOD SITUATION (Paragraph 71 of O.R.C)

As per Paragraph 71 of Orissa Relief Code instructions have been separately issued for submission of daily situation report by the Block Development Officer/Tahasildars in the prescribed format through wireless message from the date of occurrence of the flood till after 3 days of the abatement of flood. The V.L.Ws and Extension Officers who will furnish the same to the Block Office by 2 P.M. everyday will collect the required flood information. Besides, other line department officers will also pass on the information relating to their department officers who will also pass on the information relating to their department to the respective Block Development Officers.

The Block Development Officers will compile and transmit the information as per the format of the daily situation report through the nearest police wireless by 3 P.M. to District Control Room.

TRANSPORT

In the event of any Natural Calamity, vehicles may be required for sending the relief parties and relief materials including foodstuff to the affected areas. The Regional Transport Officer will make requisition and provide such vehicles with the help of his enforcement staff as per the requirement.

DRINKING WATER (Paragraph 64 OF O.R.C.)

Executive Engineers PHD & RWSS were instructed to repair all the defunct tube wells prior to the monsoon. They have already been instructed to repair the same in war footing measure during the last Heat wave meeting. They will form mobile parties to attend the complaints within 24 hrs. They shall also ensure supply of water through tankers to the scarcity pockets and make arrangements for continuous disinfections of the tube well. The details of tube wells working and defunct conditions are given below. They may further also submit the nos of Tube wells with raised platform (Block wise) for the information. The detailed tube well position has been mentioned in chapter-III

Health Measures

PREPAREDNESS MEASURES TO BE UNDER TAKEN TO ENCOUNTER POSSIBLE FLOOD & NATURAL CALAMITY BY CDMO, GAJAPATI

1. RRT has been kept ready at the district level as well as block level.
2. Opening of control room 24*7 with a working telephone number which be communicated to every level.

Gajapati District Disaster Management Plan-2022-23

3. Availability of emergency drugs like ORS, Halazone tab, Anti diarrheals, ASV, IV fluids at every PHC (N) & minor aliment treatment drugs of every Sub center to provide minimum service package in case any shortage of above related drugs to be ended very immediately.
4. All vehicles including Ambulance 102, 108, MHU vehicles have been kept in readiness with DOL/ POI to meet any emergency.
5. Gathering surveillance data daily on communicable diseases i.e. Diarrhoea, Fever, ARI, Measles, Snake Bite, Skin diseases etc from community as well as health institution in the prescribed format to monitor trend and detect outbreak if any.
6. Health education on use of safe water, use of Halazone, ORS availability of ASV, use of mosquito nets etc.
7. Health service delivery through functional health institution / opening of MRC/ movement of mobile medical teams as per the district plan.
8. The pregnant woman having EDD within two weeks to be enlisted village wise and kept at block level.
9. Prepositioning of bleaching powder, ORS, halazone, other essential drugs to be undertaken on war footing basis to the affected areas.
10. ILR points and other logistics in low lying areas likely to be submerged to be identified and kept in readiness to be shifted in emergency.
11. Man power resources to be mapped and kept in readiness for deployment to the affected areas.
12. Surveillance:- Both field and institutional surveillance are intensified for immediate detection and treatment of any out break of epidemic by the field staff like Health Workers (M&F), Health Supervisor (M&F) and AWWs/ ASHA in the field and by the medical officers in the institutions.
13. Disinfections: - Disinfections of dug wells/ drinking water sources at regular interval, education for use of water purifying tablets if used water other than tube wells, proper function of tube wells monitor at block level by the Medical Officer, No. of functioning tube wells are enumerated and the defunct tube wells are reported to RWSS department for rectification under intimation to the Chief District Medical Officer, Gajapati
14. Lab surveillance, Disease surveillance activities and daily reporting to be ensured at district, block level and its onward transmission to state.

Gajapati District Disaster Management Plan-2022-23

15. All the medical institutions should be in readiness to meet any public health emergency
16. All the Doctors & medical staffs up to grass root level alert with in exception of land slid.
17. Generator at the delivery & ILR point should be kept ready.
18. Supervision and feedbacks on all health activities is done as per action plan . The CDMO, Gajapati will remain over all in charge.
19. There is close collaboration of other department, PRI member and NGOs.

FLOOD CONTINGENT PLAN FOR 2017 OF GAJAPATI (DISTRICT HEAD QUARTERS)

The CDMO will act as overall charge of the District Administration and management as keeping liaison with DHS(O) Secy Health and Collector. The Zonal Officers are requested to visit their respective areas and see the arrangements .The mobile teams are formed with Doctors and Para Medical Personnel with Drugs to rush to the spot at the time of emergency. The ADMO (PH) shall supervise the mobile team. All the drinking water sources shall be disinfected. The Health control room is functioning at district and sub-divisional level. The CDMO have to ensure filling of all vacancies of Doctors in all peripheral health Institution of Gajapati District.

Coordination with Health Deptt.along with Revenue Deptt. should be established at Block level. The MO, PHC, I/C should keep close contact with the local Chairman of the Panchayat Samiti, BDO, Tahasildars and with other Non-Govt. Organizations. The SDMOs should keep close contact with the Sub-divisional officials for help of powerboats available at their disposal for deployment of staff and drugs to the vulnerable points at the time of need. Drinking water sources of each and every village may be earmarked for disinfections. Advance disinfections work should be completed immediately. The surveillance system and preventive measures should be monitored by the MO, I/C, PHC by visiting the spot. Steps should be taken to streamline the health intelligence system surveillance system for prompt reporting.

The Health control room, which is functioning as sunstroke control room shall function as Control room of flood and Natural Calamities from 8 am to 8 pm in similar way. The epidemic squad should contact the affected areas for 7 days or till the epidemic subside.

The PHC vehicles are to be used as Ambulance in emergency situation where ambulance facilities are not available.

ADMO, Gajapati has explained on the health contingency plan. The control rooms are functional. Necessary drugs along with ORS etc are being kept in hospitals, CHCs & PHCs. The zoning has been done and Officers have been given with the responsibility. Mobile health teams are being formed.

Gajapati District Disaster Management Plan-2022-23

Veterinary Measures.

Control Room shall function in the Office of the CDVO and SDVOs Office for monitoring and supervision during the emergency. The CDVO to identify the vulnerable places and assess the lives stocks to be affected due to flood, cyclone and drought. Preventive vaccination to control contagious diseases of lives stocks must complete before monsoon. The CDVO to organize cattle shelter camp and their management and the requirement of funds for cattle fodder and feed be communicated to the Director, Veterinary.

Total	61387	116804	90243	26843

Gajapati District Disaster Management Plan-2022-23

The CDVO is advised to take the following steps

- Formation of Relief team in Block, Sub-Division and Dist.Head Quarters
- Arrangement of feed and fodder for affected livestock and its storage.
- Provision of drinking water facilities in all the public places and Veterinary institutions.
- Formation of emergency veterinary Mobile Team to attend the emergency cases for treatment.
- Preventive vaccination to control contagious and infections diseases of livestock.
- Public health management programme for control and prevention of communicable diseases like ANTHRAX
- Routine organization of Animal Health Camp in disaster Prone localities.
- Public Health Management for control and prevention of BIRD FLU
- CDVO appraised that the vaccination will continue with maximum coverage and sufficient vaccine is available in the Dist. Office to carry out preventive measures.

Fodders will be kept ready. CDVO will also look into the arrangements of required cattle feed this year. To meet the emergency situation it was opined that fodder for cattle should be distributed simultaneously with rice.

DISPOSAL OF DEAD BODIES (Paragraph 73 of ORC)

The dead bodies of human beings, if any, found in the flood-affected areas in case of high flood, shall ordinarily be made over to their relatives and friends, if available, for cremation or burial. When there are no claimants for dead bodies, those shall be cremated/buried at the Government cost

i.e. Health Department. Chief District Medical Officer, Gajapati will issue necessary instructions to their officer and staff in the field in this regard.

Similarly, carcasses of cattle and other animals shall be buried by the Animal Resources Development Department. Chief District Veterinary Officer will issue necessary instruction in this regard.

ASSESSMENT OF DAMAGE (Paragraph 74 to 77 of O.R.C)

Damage caused by any Natural Calamity to the private and public properties and loss of life are assessed by the Revenue Agency. The Tahasildars are to collect such information with the help of his staff through the local enquiry. The Block Development Officers and the Extension Officers in this work if necessary will assist them and officers may be specially deputed by the Collector to assist the Tahsildars in this work where there is large-scale damage. This report of damages would be submitted without delay. The other departments will similarly assess their losses and submit reports within the stipulated time.

RESTORATION OF COMMUNICATION AND POWER SUPPLY (Paragraph 86 of ORC)

In case of high floods, the communication and power supply to the affected areas are usually cut off. The respective departments will take

Gajapati District Disaster Management Plan-2022-23

immediate steps for restoration of the communication as well as power supply after abatement of flood.

Agricultural Measures

F L O O D

Early Flood

Medium/low land

- Select rice varieties like Kanchan, Ramachandi, purga, Sarala, Varshadhan for semi-deep low lands.
- If damage is more than 50% re-transplant rice crop.
- In partially damaged fields, allow the rice plants to stand upright. Do not go for beushaning as it may further reduce the plant population.
- Weed out the rice field, make gap filling and top dress N and K to boost the growth if situation permits.

Late flood (September)

If flood occurs during mid August to early September.

- Transplant 40-65 days old seedlings after flood water recedes.
- Make up plant population by transplanting clonal tillers detaching from the old clumps, wherever possible.
- Broadcasting/line sowing of sprouted seeds of relatively short duration rice varieties in soft puddle after flood water recedes.
- Apply moderate dose of fertilizer (40:20:20 N:P20S:K20 kg/ha).
- Particularly in up-medium land, where there is no scope for revival of rice, go for pulses like blackgrani, weengram, horsegram.

Plant population:

- Raise nursery by Dapog method to transplant wherever possible.
- Maintain a buffer nursery in the backyard/highland area to ensure adequate plant population in the field after flood damage.

Fertilizer application

- Reduce nitrogen application and apply recommended dose"of P and K as basal to increase flood resistance.
- Apply moderate dose of NPK at beushaning, if not applied earlier.
- Top dress N and K in flood affected areas if situation permits.

Insect pest management

Rice

After the flood ~cedes there is probability of attack of swarming caterpillar in rice. To manage the pest.

- Regular surveillance in the rice fields .where flood water recedes should be done to locate appearance of swarming caterpillars.

Gajapati District Disaster Management Plan-2022-23

- ❑ When they cross the ETL Le., one larva / hill then spray the crop with chlorpyrifos / triazophos / profenophos / endosulfan @ 1 lit/ha or dust the crop with methyl parathion 2% 0 or quinalphos 1.5% 0 @ 25 kg/ha.
- ❑ To prevent migration of larvae from one field to other, bunds should be heavily dusted with, the dust formulation mentioned above.
- ❑ Application of ins'ecticides in the afternoon hours is preferred.

In partially inundated areas, rice caseworm and in general leaf folder attack is expected. If 1-2 cases or folded leaves / hill is seen spray the crop with endosulfan / monocrotophoschlorpyrifos @ 1 lit/ha or with cartap hydrochloride 50 SP / fipronil 5 SP @ 500 g/ha. .

Pulses, Oilseeds, Vegetables, Cotton

- ❑ In these crops due to high humidity black aphid and cotton aphid population may increase. The pest severity can be managed by spraying of neem formulations (1.500ppm) @ 2.5 lit/ha when the population is low or spraying with dimethoate @ 1 lit/ha or imidacloprid @'125 ml/ha if population is high.
- ❑ In general regular surveillance work should be taken up in all crops. Resistant/tolerant varieties should be grown in all crops as far as possible.

Disease management

- ❑ Rain storms during *kharif* may result in severe occurrence of bacterial leaf streak and bacterial blight in rice. It is advised to spray the crop immediately after each rain storm with streptomycin (0.01 %) or plantomycin (0.1 %) or bacterinol (0.2%).
- ❑ Post flood affected areas where vegetable is grown are likely to be affected by bacterial wilt disease. Therefore, total package of practices starting from planting need to be followed as given below.
 - Seedling root dip for 15 minutes in 0.15% streptomycin or 0.015% plantomycin.
 - Perform soil drenching to the base of the plants with a solution of carbendazim (0.15%) and streptomycin (0.015%) at 10 DAP, 25 DAP and 40 DAP coinciding with intercultural operations.
- ❑ Spray Ridomil MZ @ 0.15% against downy mildew diseases of cucurbit crops.
- ❑ A protective spray with mancozeb @ 0.3% may be given to pulse crops (greengram and blackgram) against *Cercospora* blight disease.

LAW AND ORDER

In case of occurrence of any Natural Calamity, there is change of law and order problems. Transportation and distribution of relief materials may require police protection.

Gajapati District Disaster Management Plan-2022-23

The Superintendent of Police will issue necessary instruction to all Inspector officer/officer officers in the District in the direction of maintenance of law and order in such eventuality and to render necessary assistance to the District/Sub-Divisional authorities for smooth management of relief and rescue operation.

CONTINGENCY PLAN FOR CYCLONE

The unprecedented super cyclone in October 1999 compelled preparation of a sound and exhaustive contingent plan for cyclone. The Collector usually gets a special alert message from the STORM WARNING CENTRE, wherever a depression forms in Bay of Bengal. This is followed by second stage warnings when there is actual threat of cyclone over the area. Weather bulletin will also be broadcast repeatedly by All India Radio / T.V.

- It is of utmost importance that the cyclone warnings should be relayed to all the Subordinate Offices without delay for wise publicity of the information and initiating preventive measures. The following modes of communication are available now.
 1. Telephone
 2. Telegraph
 3. Police Wireless/V.H.F
 4. Radio
 5. Television
- It shall be the responsibility of the Tahasildars and Block Development Officers concerned that the cyclone warnings, on receipt, are immediately communicated to all the villages likely to be affected. For this purpose villages where telephone connection are available should be identified in advance and reported by concerned Sub-Collectors to the Collector.
- It shall be the responsibility of Radio Inspectors District Public Relation Officers and Block Development Officer to ensure that community Radio sets are kept in working and specific persons are nominated to listen to at the village level and communicate the same to all the villagers. The person so nominated will be the Sarpanch / Panchayat Secretary/Headmaster of Primary Schools etc.
- The Superintendent of Police (Signal) will arrange for communicating the warning messages through wireless and the Sub-Inspector of Police Officer to communicate the information to all the villages in the jurisdiction of the police station.
- It will be responsibility of the Divisional Engineer, Telephones to communicate the warnings to public call officer and the person of the P.C.O. will communicate the same to the village officers/Executive Officers/ Sarpanches for communication to the public.
- In respect of all villages where there is no scope of communication through telephone, telegraph etc, the warnings shall be communicated through police Gram Rakhi/Constables/Special messengers.

Gajapati District Disaster Management Plan-2022-23

- It shall be the responsibility of the officer in-charge of Control Room to ensure that all instructions and provisions contained in the cyclone plan are communicated to all concerned and the plan put into operation immediately after receipt of cyclone warning messages.
- Immediately on receipt of first warning, the Collector shall call the meeting of the cyclone committee and review the preparation for emergency procedures. The committee meets almost weekly thereafter till the emergency ceasefire, Police, P.W.D., Revenue and Health Department personnel remain alert round the clock. The roads and building Department keep sufficient men and truck to clear the roads of all obstructions due to fallen trees etc. The Regional Transport Officer shall requisition adequate number of trucks and buses and keep ready.
- The R.T.O. in consultation with the Additional District Magistrate, will requisition sufficient Government Vehicles of various Departments and keep them ready.
- The Health Department shall keep the teams of Doctors ready with stocks of medicine required to undertake relief measures. The Chief District Medical officer shall also obtain sufficient stocks for purifying of drinking water wells and tanks with chlorine.
- The Municipal authorities shall take steps to keep maximum possible quantity of water in overhead reservoirs of the Municipal water works wherever existing. Similarly the water tankers available with the Municipality should be kept ready.
- The Civil Supplies Officer, Gajapati shall make arrangements for the withdrawal of rice etc, from the F.C.I. in order to dispatch these to the affected areas. He should also take steps to requisition sufficient stocks of petrol, diesel, and kerosene in local outlets on Government accounts.
- The post and Telegraphic authorities keep required men and materials ready for moving into the areas at short notice for restoring communications.

ACTION TO BE TAKEN AFTER RECEIPT OF SECOND WARNING

- All the District Level Officers, Officers of Electricity Department Concerned P.W.D. Officers, M.V.I. and R.T.O. shall report before the Collectorate Control Room immediately after receipt of the 2nd warnings either by official message or on All India Radio/T.V. for discussions for taking necessary steps to meet the situation.
- So also the officers at Tahasil level, like Block Development Officers, Agricultural Officers, Assistant Engineers of Irrigation Department, Drainage, Roads and Buildings Department, Circle Inspector of Police shall meet the Tahasildar in his Control Room.

POST CYCLONE MEASURES

The following measures shall be taken immediately after the cyclone.

Gajapati District Disaster Management Plan-2022-23

- The most important task is to open up the roads and clear fallen trees. The most practical and effective way is to permit the local villages to cut the trees and remove the wood for themselves. The Executive Engineers R & B shall take steps to clear the roads by removing the fallen trees any wherein the District.
- The Electricity Department shall take steps to clear the roads of fallen electric poles and to restore power supply on priority basis to Collector's Office, Tahasil Office, Hospitals, water works and other Government Offices. Tahasil Headquarters and Block headquarters will get priority.
- The Sub divisional Engineer, Telephones shall take steps to restore connections at least in the District and Tahasil and Sub-Divisional Headquarters most expeditiously. The connections will be given on priority basis to Collector's Office, Office of the Superintendent of Police Headquarters, Hospital, Municipality, and Chief District Medical Officer and other Government Offices, Private Hospitals will get next priority.
- The Telegraphs Department shall immediately move their personnel to restore the telegraph communications.
- The Chief District Medical Officer should arrange moving of Medical Teams with sufficient medicines to the affected areas, to initiate health measures in the Municipal area shall be the responsibility of the Municipality.
- The Regional Transport Officer should contact the Additional District Magistrate (Relief) for fulfilling the requirement of further vehicles on requisition.
- The Tahasildars shall take immediate steps to assess the damages caused. The staff working in the Panchayat *Samities* and other local offices shall be requisitioned for the purposes and special teams constituted for the assessment of loss of human life and damage to houses and other properties. They should also make arrangements to organize feeding Centers in Relief Camps.
- The Collectorate Control Room shall take steps to enlist the services of AIR FORCE or NAVY HELICOPTORS, for air dropping of food and other supplies to the marooned villages when necessity arises.

Gajapati District Disaster Management Plan-2022-23

CONTINGENCY PLAN FOR FIRE ACCIDENTS

Gajapati district is highly vulnerable to fire accidents

It is the responsibility of the Tahasildars and Block Development Officers concerned that the FIRE ACCIDENT message, on receipt, are immediately to be communicated to the District Control Room. For this purpose villages where telephone connection is available should be identified in advance.

When fire accidents take place apart from requisitioning and utilising the services of the Fire fighting squads to put off the fire as expeditiously as possible, the following relief measures are undertaken to relieve the distress of the fire afflicted people from the Govt. account;

- Emergent relief in the form of dry food and supply of clothing in case absolutely necessary.
- Free grant for effecting repairs to the damaged houses; and
- Loans for building fire-proof houses.

EMERGENT RELIEF:

Where the fire accident is wide spread causing large scale devastation and throughing the affected people in to a state of helplessness, humanitarian and generous people either of that or of other areas, as also philanthropic organization including the INDIA REDCROSS SOCIETY come forward to render assistance to the afflicted people in the form of medical aid, food and clothing.

But where no such private voluntary assistance is forth coming, emergent relief in the shape of dry food at the rate of 1 kg per adult and 500 gms for child below 12 yrs of age per day shall be given from Dist. administration as per the Govt .in Revnue and Disaster Management Office order No.26130 dated 18.6.2008. The Sub-Collector and Collector are competent to sanction such emergent relief in the respective jurisdiction for a period of 3 days. If it is found in adequate the Revenue Divisional Commissioner may extend it up to 7 days and the Member, Board of Revenue/ Special Relief Commissioner up to 15 days. As per resoultion no 18928 dated 25.4.2008 of Govt in Revnue and Disaster Management Department the food assistance on cards can be sanctioned by the Mayor in Municipal Corporation, Chair person in Municipality/NAC for a period of ten days.

HOUSE BUILDING ASSISTANCE FOR AFFECTED INDIVIDUAL FAMILY:

“The scale of house building grant to be sanctioned in respect of houses of small and marginal farmers damage due to fire accidents for repair or reconstruction of their as per revised norms of CRF

More over “In case any member of the family dies in fire accident Ex-gratia relief of Rs.1.50 lakh shall be given to the bereaved family As per para 254 of Orissa Relief Code and instruction of SRC,Orissa communicated vide letter no. 7813/R&DM dt. 25.02.2012

Gajapati District Disaster Management Plan-2022-23

COMMON TIPS TO REMEMBER FOR FIRE ACCIDENTS

HIGH RISE FIRES:

- ❑ Calamity leaves the apartment, closing the door behind you. Remember the keys.
- ❑ Pull the fire alarm near the closet exit, if available, or release an alarm, warning others.
- ❑ Leave the building by stairs.
- ❑ Never take elevator during fire

IF THE FIRE EXIT IS BLOCKED BY SMOKE OR FIRE:

- ❑ Leave the door closed but, do not lock it
- ❑ To keep smoke out, put a wet towel in the space at the bottom of the door
- ❑ Call the emergency fire number and tell them your apartment no. and let them know you are trapped by smoke and fire
- ❑ It is important that you listen and do what they tell you.
- ❑ Stay calm and wait for some one to rescue you

IF THERE IS SMOKE IN YOUR APARTMENT:

- ❑ Stay low to floor under the smoke.
- ❑ Call the fire emergency number which should be pasted near your telephone, along with police and other emergency services and let them know that you are trapped by smoke.
- ❑ If you have a balcony and there is no fire below it, go out
- ❑ If there is fire below, go out to the window DO NOT OPEN THE WINDOW but stay near the window.
- ❑ If there is no fire below, go to the window and open it. Stay near the open window
- ❑ Hang a bed sheet, towel or blanket out of the window to let people know that you are there and need help.
- ❑ Be calm and wait for some one to rescue you

KITCHEN FIRES:

- ❑ It is important to know what kind of stove or cooking oven you have in your home-gas, electric, kerosene or where fire is used. The stove is the number one cause of fire hazards in your kitchen and can cause fire, which may destroy the entire house especially in rural areas where there thatched roof or other inflammable materials like straw kept near the kitchen. For electric and gas stoves, ensure that the switch or the gas valve is switched off/turned off immediately after the cooking is over. An electric burner remains hot and until it cools off, it can be very dangerous; the oven using wood can be dangerous because burning embers remain.

COMMON TIPS:

- ❑ Do keep the phone number of the fire service near the telephone set and ensure every one in the family knows the number
- ❑ Do keep match boxes and lighters away from children
- ❑ Do sleep with your bedroom closed to prevent spread of fire
- ❑ Do you know that you should never run if your cloths are on fire and that you should TOP-DROP-ROLL?

Gajapati District Disaster Management Plan-2022-23

CONTINGENCY PLAN FOR RAIL ACCIDENTS-

“Safety is not an activity, it is an attitude.”

Some of the major train accidents in recent years involving heavy casualties underscored the need for a re look at the prevailing accident management system on the Indian railways. Safety is not an activity, it is an attitude. Safe transport of men and material is the prime objective of Railway Administration. But despite best of efforts accidents do take place. A speedy and efficient rescue and relief operation is the essence of this contingency plan of Railway accident. The Gajapati Station is coming under Khurda Road Division and one of the important Junction of East Cost Railway.

GENERAL INSTRUCTIONS & ACTION PLAN REGARDING MANAGEMENT OF SERIOUS ACCIDENTS INVOLVING CASUALTIES.

Collisions, derailments and other accidents including accidents at level crossings involving casualties have been clearly defined in the Accident Manual. The following is the sequence of actions to be taken by different agencies when a disaster takes place-involving casualties.

Information:

On receipt of information of train accident involving casualties, the District Collector and Superintendent of Police in whose jurisdiction the accident has taken place should be informed by the CHC/Dy. CHC from the control.

The ARME must be dispatched to the accident site within 15 minutes from the base station where there is double exit siding and within 25 minutes in case of single exit siding with the first available locomotive. The ART or the crane should be turned out and dispatched from the base station to the site of accident within 30 minutes by the day and 45 minutes in night after sounding the hooter.

Section Controllers, Dy.CHC on receipt of information will communicate the same instantaneously to DRM and ADRM and should ring the buzzer to draw attention of Controllers of other Departments. Information should also be relayed to Headquarters emergency control.

MEDICAL AID FROM OTHER SOURCES:

In all cases of accidents involving of casualties, medical aid must be summoned from the nearest sources available. A list of medical facilities available nearest to each station is displayed at the station. The Station Manager of the nearest station should requisition medical assistance from these sources either through telephone or through a messenger.

Gajapati District Disaster Management Plan-2022-23

MOBILISATION OF OTHER ASSISTANCE:

The services of NGOs & voluntary organizations nearer to the site of accident should be sought in rescue and relief operations. Depending on the intensity of the accident involving heavy casualties and trapping of passengers in coaches, the services of Defence and para-military establishments may be obtained. The Security Control should be responsible for mobilizing the assistance of these establishments to assist the railway in relief and rescue operations.

RESCUE & RELIEF OPERATIONS :

In case of accident involving casualties, the following officers should accompany the ARME. DRM/ADRM, DOM/AOM, Sr.DME/DME, Sr.DSTE/DSTE, Sr.DCM/DCM, Sectional DEN, Sr.DEE(G), Sr.SC(RPF)/ASC(RPF), DSO, MS, a team of Doctors, Para-medical staff should rush to the site. On the electrified territory DEE(TRD), Sr.DEE(OP) should rush to the site of accident. The other senior most officers of the above departments should remain in Control. In case DRM goes to site of accident, ADRM will monitor the relief and rescue operations from the Control office assisted by Sr.DOM.

RESCUE TEAM :

This team will be headed by Sr.Divisional Mechanical Engineer assisted by ADEN(Engg.),

AME(Mech), ASTE (S&T), AOM(Optg.), DEE/G (Elect.) & DMO (Medical).

- Removal of the debris, extricating the injured and trapped persons from the affected coaches, setting up collapsible ladders to bring down the affected passengers to the ground from the coaches. This team can take the assistance of NGOs/Defence personnel, RPF & Police personnel.

ii) MEDICAL TEAM :

This team will be headed by CDMOs and other Medical and para-Medical staff including members of St.John Ambulance and Civil Defence.

To attend the seriously injured passengers and prepare list of dead/injured for which an officer or Sr.Subordinate should be nominated (including collecting the address as of the nearest relatives).

- Arrange to shift the injured persons to the nearest Hospital with the help of doctors.
- Render first-aid for the injured.

iii) TRANSHIPMENT TEAM :

This team will be headed by Sr.Divl.Commercial Manager assisted by DCM/ACM, AOM, ASC (Security), ASTE (S&T), PRO (PR) & DCM (NGOs).

- Food, drinking water, beverages, refreshment for the passengers to be arranged with the help of Commercial Department on the spot free of charge as per instructions contained in para 6.15 of the Accident Manual. Details are reproduced in Annexure-2.6.0

Gajapati District Disaster Management Plan-2022-23

- Judicious transshipment of the passengers and their belongings by special trains or by buses as the case may be.
- iv) COMMUNICATION TEAM :
- This team will be headed by Sr.Divl.Signal & Telecom. Engineer assisted by ADEN(Engg.), ASTE (S&T), AME (Mech.), DMO (Medical).
- Set up Communication system to keep relaying up-dated informations to the control/ Divisional office, setting up “INMARSAT” phone (Satellite based communication system)/VHF sets.
 - Make available telephones with STD facility/Cell phones for use of stranded passengers.
 - Instructions regarding utilization of VHF/Walkie Talkie sets with frequency allocation are furnished in Annexure-2.6.1.
- v) SECURITY TEAM :
- This team will be headed by RI (GRP), CI (Police) and Defence Officer (Defence).
- Providing early clearance in co-ordination with local police,
 - Cordon off the place with the police personnel/RPF to secure and watch the belongings of passengers and prevent any intruders.
- vi) RESTORATION TEAM :
- This team will be headed by Sr.Divl.Engineer (Co-ordination) assisted by Sr.DEN, DEN, AEE/G (Elect), DSTE (S&T), DOM/M (Optg.), DEE/OP, AME/P (Loco) and Divl. Elect. Engineer (TRD).
- Arrange to set up lighting arrangement portable generators to illuminate the area and setting up tents/relief shelters. Details of private agencies giving D.G. sets and flood light equipments on hire, is furnished in Annexure-2.7.0.
- vii) WARDEN SERVICES TEAM :
- This team will be headed by Divl.Personnel Officer(I) assisted by DPO(Welfare), DCM (Comml.), DCOS (Stores) and DFM (Finance).
- Arranging Food, Water, Snacks, etc. for the persons at work.
 - Arrange for ex-gratia payment as per rule on the spot. As far as exgratia payment to staff involved are concerned, the same to be done by Sr.DPO/DPO & for the passengers/public, the same to be organized by the Commercial Department.
- viii) MEDIA MANAGEMENT TEAM :
- This team will be headed by Sr.Divl.Safety Officer assisted by Sr.DMO (Medical), PRO (Comml.), ACM (Comml), Hindi Officer (Rajbhasha), Videographer & Accident Photographer.
- This Team will be responsible to inter-act with the media and will only convey authorized version with regard to the details of accident, its cause, casualties, etc.

Gajapati District Disaster Management Plan-2022-23

- Video/ Still photography of the site and restoration (instructions given at Annexure may be seen), relaying the site information and list of affected persons to the Media Internet and to Control Room.
- Probable cause of accident should be preserved carefully.

Information regarding killed and the injured :

- (a) It will be the first duty of all Railway Officers and staff on reaching the site of a serious accident to attend the injured and see to their comfort, rendering first aid and shifting to the nearest hospital, etc.
- (b) However, collection of detailed information of the dead and injured is also most important. The officer in-charge at the site of accident will specially nominate an Officer or Senior Subordinate(s) preferably of the Commercial Department to prepare list of killed and injured separately with the following information as far as available.
1. Name
 2. Approximate age
 3. Sex
 4. Home address
 5. Ticket No., Class, From and To
 6. Name and address of next of kin or relatives.
 7. Monthly income and source of income.
 8. Particulars of luggage/property recovered and made over to police/relative/safe custody.
 9. Particulars of luggage/property lost or damage.
 10. Means of transport by which evacuated to hospital/station.
 11. Train No. if the injured as allowed to continue his journey.
 12. A complete list of injuries (as per report/dictation of Doctor).
- (c) The list indicated above should be prepared in conjunction with the police or civil authorities as may be present, and should be signed jointly by the Officer or Inspector nominated and a member of the police or civil authority.
- (d) The figures of the casualties must be accurate and should not be understated or exaggerated.

Exhibition of lists of dead and injured:

- (a) A complete list of the dead and injured must be exhibited at a conspicuous place at the site of accident, and if the accident has taken place between two stations, this list must be exhibited at both the adjacent stations. In addition, lists must also be exhibited at important station(s) on each side for suitable information of relatives and public.
- (b) Responsible officials must be deputed at the station where such list are exhibited to attend the all inquiries made by relatives and public and to collect further information of the dead and injured where necessary.
- (c) In the case of persons killed who have not been identified, their bodies should be serially numbered by means of small legible number inscribed on placard which should be placed at the head of each body and the bodies with their numbers should be photographed before they are disposed of.

Gajapati District Disaster Management Plan-2022-23

- (d) In the case of unidentified dead bodies, a complete description including approximate age, sex, complex, etc. must be noted as also the description of clothing, jewellery and any other marks of scars on the body that may assist later in identification.
- (e) Instructions contained in para (c) & (d) above should be followed in addition to the other rules and formalities in regard to the disposal of dead bodies.

Opening of Enquiry Offices :

In the case of serious accidents, Enquiry Offices must immediately be manned at

- a) The Emergency office at Headquarters.
- b) Divisional Control Office.
- c) Site of accident.
- d) The station where injured or dead are shifted for further action.
- e) Any important station as considered necessary.

Sr. DSTE has to ensure that DoT lines are available at the above locations immediately to convey information about the injured and dead to the general public. The telephone Nos. should be flashed through electronic and print media for the convenience of the general public.

Relief to the victims of train accident :

- (a) On arrival at the site of accident, the Railway Medical Official after affording medical aid as best as possible, arrange for the removal of the injured promptly from the site of accident to the nearest Railway, Civil, Military or private hospitals considering the seriousness of the injury and with the help of all available assistance. A Railway Medical Officer must as far as possible accompany the injured to the hospital and see that they are properly accommodated for further treatment.
- (b) Each of the seriously injured persons must be given a ticket, showing his name and address, name and address of nearest relative, the time and place of accident, probable diagnosis and treatment given. This ticket may be placed round the neck of the disabled or unconscious for guidance of the hospital and which they may be eventually removed.
- (c) The senior most Medical Officer of the division/Hospital shall be responsible to ensure recording the details of injuries and the treatment undertaken for each case as also the further disposal particulars of the injured.
- (d) (1) (a) In the event of a train accident resulting in the death of a passenger traveling by the train, compensation should be paid irrespective of whether bonafide authority to travel has been produced or not.
(b) The amount of ex-gratia relief payment to the dependents of dead or injured passengers involved in train accidents or untoward incidents as defined under sections 124 & 124A.

- 2. No ex-gratia payment would be admissible to the trespassers, persons electrocuted by OHE and road users at unmanned level crossings.

CONTINGENCY PLAN FOR DROUGHT

The occurrence of drought and flood is common in Orissa. From the past experience it is evident that weather vagaries are common in this district. Cent percent recovery may not be expected but a significant recovery could be achieved adopting effective and appropriate contingent measures.

I. Drought Preventive Measures

Dry showing starts from last part of May to middle of June. Onset of monsoon normally starts by 3rd to 4th week of June.

- If there is prolonged dry spell during 1st week of July, drought like situation may arise. In this situation of Gaja Marudi, farmers will be advised to take up sowing of paddy. Comparatively, less duration than that of previous varieties like Khandagiri, Udaygiri etc. will be taken under up-land condition. Further varieties like Konark, Surendra, Lalata, MTU-1010, in medium and CR-1018, Moti, Durga, Sarala in low land condition should be resown. This process of resowing should be completed by 15th July.
- If drought like situation still prevails, the sprouted short duration high yielding varieties should be sown keeping in view that the last date of harvest should be in the month of October, November and December respectively for high, medium and low land paddy.
- If drought situation occurs in the month of August, non-paddy crops like Mung, Biri, are advisable to take up in up-land, sprouted seed of 100-115 days duration paddy like Khandagiri, in medium land and sprouted seed medium paddy like Lalata, Swarna, MTU-1011, Surendra in low land condition should be broadcasted in wet land soil condition.
- If drought occurs in last part of September then non-paddy crops for up-land medium land and sprouted seed/seedling for low land may be advised.

A. Upland

1. Select efficient crops and cropping systems matching the length of growing season. Some of the promising crops for rainfed uplands are maize, cowpea, arhar, blackgram, rice bean, ragi, groundnut, sesame, castor, pumpkin and sweet potato.
2. Choose short duration varieties, which possess faster rate of growth, deep and penetrating root system and ability to escape drought.
3. Store rainwater to use as life saving irrigation. On-farm water harvesting structures lined with 6:1 soil: cement mortar of 6 cm thickness in 10% land area helps to harvest the rainwater for providing protective irrigation.
4. Perform off-season ploughing to conserve moisture, reduce pest and weed problem and to facilitate early sowing.

Gajapati District Disaster Management Plan-2022-23

5. Plough and sow the crops across the slope to develop a ridge and furrow type of land configuration for effective soil moisture conservation to overcome drought for longer period.
6. Follow partial mechanization to ensure 'timeliness' and precise of operations (desired depth and tilth) to utilize land, rainfall and other natural resources effectively.
7. Apply soil amendments in acid soils 3 weeks before sowing of crops.
8. Adopt integrated farming system. Apart from crop component, inclusion of animal components and some ancillary enterprises like bee keeping, mushroom cultivation, planting fruit trees, timber species will diversify production and impart stability to production system. Practice tree based farming systems and grow different field crops in the alleys.
9. 'Adopt intercropping/mixed cropping system in recurrent drought prone areas as mentioned below: (please see next page)

Sl. No.	Intercropping	Row ratio	Set specification (cm)	Row distance of intercrop (cm)
ARHAR BASED				
1.	Arhar + groundnut	2:6	30-210-30	30
2.	Arhar + sesame/niger	2:4	30-150-30	30
3.	Arhar + greengram/blackgram	2:3	30-120-30	30
4.	Arhar + ragi	2:4	30-100-30	20
5.	Arhar + rice	2:5	30-90-30	15
6.	Arhar + rice (mixed broadcast)	40:60	Seed rate ratio of individual crop for broadcasting	
7.	Arhar + radish*	2:2	30-90-30	30
8.	Arhar + okra	2:2	30-90-30	30
MAIZE BASED				
9.	Maize + arhar	2:2	30-90-30	30
10.	Maize + cowpea	2:2	30-90-30	30
11.	Maize + cowpea (fodder)	2:1	30 cm uniform row	30
12.	Maize + runner bean*	2:2	30-120-30	40
13.	Maize + yam*	Two rows of maize grown at 30 cm distance in both sides of yam planted in mounds at 90 cm x 90 cm to act as live staking		
RICE BASED				
14.	Groundnut + rice	1:4	Uniform row	15
15.	Greengram/blackgram + rice	1:4	Uniform row	15
16.	Greengram/blackgram+rice	1:2	In drought year, if rice fails, pulse crop is maintained and in a normal year pulse is cut for fodder and rice is maintained	
17.	Okra + rice	2:4	30-75-30	15
18.	Radish* + rice	2:4	30-75-30	15

Suitable for inland hilly districts (please see next page)

11. Follow principles of watershed management as follows:

- *In situ* soil and water conservation measures like contour farming, cover cropping, bunding, trenching, terracing, ridge and furrow method of planting.
- Manage water ways through check dams, stone structures, brushwood structures on natural streams/ nallahs to store water.
- Water harvesting (digging ponds and lining) in 10-12% area.
- Utilize harvested water through micro-irrigation methods (drip/sprinkler).
- Moisture conservation through mulching.
- Gully plugging through stacking of locally available pebbles filled in empty cement bags across water ways. Growing of grasses in water ways is also helpful in reducing soil erosion.
- Construct a series of percolation tanks in light textured soils to recharge the profile and for supplemental irrigation.
- Strengthen village institutions to enable people's participation.

12. Follow suitable agronomic practices as follows:

- Apply a portion of FYM in the seed furrows at the time of sowing to conserve moisture to prevent seedling mortality from early drought.
- Grow short duration rice varieties such as Annanda, Pathara, Jogesh, Sidhanta, Khandagiri, Kalinga-III, Heera, Vandana and RR 166-645 or tall varieties like Brown Gora, Surajmukhi, Saria.
- Sow non-paddy crops like ragi, maize, arhar, greengram, blackgram, cowpea, guar, sesame, groundnut, castor in place of upland rice.
- Vegetables come up well in drought/low rainfall years. Utilize the ponds, reservoirs and water bodies for growing tomato, cauliflower, radish, brinjal, runner bean in the inland hilly districts and cowpea, guar, lady's finger and chilli in coastal plains.

B. Medium / low land

Rainwater management in medium and low lands is crucial for mitigation of drought and improvement in production. A technology for storing excess rain water in medium/low land has been standardized by devoting 10% of the cultivable area. The objective is to minimize runoff by encouraging its entry into the soil (*in-situ* water conservation) and capturing that which cannot get into the soil. In the first step, the field bund is strengthened by raising the dyke height to 45 cm with provision of weir at 20 cm height for spilling over excess water to runoff collection tank (refuge). The refuge is constructed at the lower reach of the plot with top width 3.0m, bottom width 2.0m and depth 1.8m. The length of the refuge is equal to the width of the plot. This technology is based on the principle that out of total annual rainfall (1500 mm) nearly 50% of the rainfall comes from a few intense showers resulting in higher runoff. On the other hand in certain years there is a break in rainfall at a stretch for 10-12 days during crop growth period. This long stretch of dry period affects the rice crop

Gajapati District Disaster Management Plan-2022-23

adversely. The excess runoff discharged over the weir height during intense showers in the early season if collected in the refuge can provide protective irrigation to mitigate the intermittent drought in rice 'crop.

II. Drought Ameliorative Measures:

It is difficult to define the exact crop and weather scenario during an anti Gipated drought or dry spell. Hence, it is really a difficult task to delineate rigid contingent measures well in advance of the cropping season applicable to all situations. However, there are three distinct periods of *kharif* season relating to crop growth stage and associated farm practices. Depending on the rainfall onset and pattern of distribution, seven types of scenarios have been projected and required contingent measures have been suggested below.

A. Early season drought (June 10 to July 31)

- ❑ Scenario 1: Early onset and sudden stoppage of monsoon
- ❑ Scenario 2: Late onset, uplands not covered till mid-July

B. Mid season drought (August 1 to September 15)

- ❑ Scenario 3: Non-paddy crops in uplands affected
- ❑ Scenario 4: *Beushaning* of rice delayed
- ❑ Scenario 5: Transplanting of rice delayed / seedlings over aged
- ❑ Scenario 6: Beushaned/transplanted rice affected at early vegetative stage.

C. Late season drought (September 16 to October 31)

- ❑ Scenario 7: Medium and low land rice affected at vegetative / reproductive stage.

EARLY SEASON DROUGHT (June 10 to July 31)

Scenario 1: Early onset and sudden stoppage of monsoon Under such a situation there is more likelihood of mortality of sprouts and seedlings and difficulties in sowing.

(a) Upland

- ❑ When there is more than 50% mortality, resow the crop up to July after receipt of sufficient rain water. It is always wise to raise low water requiring non-paddy crops like ragi (Suvra, Bhairabi, Dibyasinha, Godavari), greengram (K-851, Sujata, PDM-54), blackgram (T-9, Pant-U-19, Pant-U-30 and Sarala), cowpea (SEB-2, Pusa Barsati, Utkal Manik), sesame (Uma, Usha, NirmaJa, Prachi), ricebean (RBL-6, BRB-1), castor (Jyoti, Kranti, Harita). If mortality is less than 50%, the crops may be gap filled.
- ❑ Cultivate vegetables-cowpea, guar, radish, runner bean, okra, cauliflower, brinjal, tomato wherever possible. .
- ❑ Niger (Deomali, Alasi-1) and horsegram (Urml) to be sown in August.

Gajapati District Disaster Management Plan-2022-23

- In wide as well as close spaced line sown crops complete hoeing, weeding followed by rigning to the base of the crop rows at 20 days after sowing for *in-situ* moisture conservation.

(b) Medium and low land

- If rice population is less than 50%, resow the crop. Select medium duration varieties (125 days) for coastal districts. Sprouted seeds may be direct seeded or fresh seedlings of early varieties may be raised for transplanting. The sprouted seeds can be sown in the lines by seed drill.
- If the rice population is more than 50% carry out weeding and adjust the plant population by *Khelua* (removing and redistributing the hills) and clonal propagation.
- Raise community nursery of rice for transplanting at a reliable water source to save time for further delay.
- Sow the seeds at 5-6 cm depth by *punji* method (6 – 8 seeds at one point) at a spacing of 20 cm x 10 cm and cover it with a mixture of FYM:SSP (10:1) to avoid seedling mortality due to moisture stress in lowland. Use a seed rate of 100 to 120 kg per ha to maintain 400 – 600 plants/ m².
- In saline soil use FYM/green leaf manure, sow sprouted seeds, gap fill the crop by clonal propagation.

Scenario 2:

Late onset, uplands not covered till mid-July

- Sow drought tolerant non-paddy crops like ragi, greengram, blackgram, cowpea, guar, sesame, castor in place of upland rice.
- Maize, cowpea maybe grown in the first week of August to meet the fodder crisis.
Niger (Deomali, Alasi-1) and horsegram (Urmi) are to be sown in August.
- Grow sweet potato varieties like Gouri" Shankar, Sam rat, Shree Nandini, Shree Bhadra, Shree Ratna in the ridges and allow the furrows to conserve rain water.
- Grow vegetables like tomato, cauliflower, radish, brinjal, runner bean in the inland hilly districts and cowpea, guar, lady's finger and chilli in the coastal plains.
- Apply full P,K and 20% N of the recommended dose as basal along with well decomposed organic manure for early seedling vigor.
- Major emphasis should be given on *in-situ* rain water conservation, harvesting excess run-off for it? Recycling to make provision for life saving irrigation.

B. MID SEASON DROUGHT (August 1 to September 15)

Scenario 3: Non-paddy crops in uplands affected

- Complete hoeing and weeding in non-paddy crop fields to provide dust mulch.

Gajapati District Disaster Management Plan-2022-23

- ❑ Weeding groundnut after 45 days of sowing disturbs the pegging process. Under such a situation prune the weeds with the help of sickle
- ❑ Apply post emergence spray of quizalofop ethyl 5% EC @ 0.05 kg/ha in 500 litre of water (2ml/litre of water) at 20-25 day after sowing to control grassy weeds in groundnut/jute.
- ❑ Spray 2% KCl + 0.1 ppm boron to blackgram to overcome drought situations.
- ❑ Foliar application of 2% urea at pre-flowering and flowering stage of greengram is helpful to mitigate drought.
- ❑ Spray 1% urea in brinjal. Take up spraying measures against mealy bug and mite which are more prevalent in dry weather.
- ❑ Top dress the crops after receipt of rain.
- ❑ Remove the borer affected tillers/late formed tillers/dried leaves in sugarcane and follow wrapping and propping in chains. Stripe out the lower 4-5 leaves.
- ❑ Spray planofix or celmone 10 ppm at 45 days and 20 ppm 10 days later to prevent boll shedding in cotton.
- ❑ Spray 2% urea in late planted jute to encourage growth.
- ❑ Top dress nitrogen to ginger and turmeric @ 60 and 30 kg/ha, respectively after receipt of rainfall followed by mulching.
- ❑ Practice mulching with organics to extend the period of moisture availability.
- ❑ Thin out to the extent of 25% and use the removed plants as feed/mulch.
- ❑ Close the drainage holes and check the seepage loss in direct sown medium land rice regularly.

Scenario 4: *Beushaning* of rice delayed

- ❑ Do not practice *beushaning* (blind cultivation) in rice, if the crop is more than 45 days old.
- ❑ Weed out the field without waiting for rainfall.
- ❑ Go for gap filling using seedling of same age or clonal tillers to have a uniform distribution of plant.
- ❑ Strengthen the field bunds and close the holes to check seepage loss.
- ❑ Withhold N fertilizer application up to receipt of rainfall.

Scenario 5: Transplanting of rice delayed

Generally in this case rice seedlings are over aged.

- ❑ Seedlings up to 45 and 60-70 days old can be transplanted in case of medium and late duration rice varieties, respectively without much reduction in yield.
- ❑ Remove the weeds and follow plant protection measures against blast in the nursery.
- ❑ Pulverize the main rice field in dry conditions, if it is not ploughed earlier to save time in final puddling.
- ❑ Use tractor/power tiller/tractor mounted rotavator for speedy land preparation/puddling to cover more area with less time.
- ❑ Follow close transplanting using 5-7 seedlings/hill

- Apply 50% recommended nitrogen at the transplanting.
- Apply life saving irrigation to maintain the seedlings in good health.
- Do not top dress nitrogen in nursery.

Scenario 6: *Beushaned/transplanted* rice affected at early vegetative stage

- Provide protective irrigation through recycling of harvested rainwater.
- Remove the weeds and follow plant protection measures against blast in the nursery if existing,
- Withhold N fertilizer application up to receipt of rainfall.
- Apply Potassium fertilizers wherever soil moisture allows or wait up to receipt of rainfall.
- Strengthen the field bunds and close the holes to check seepage loss.

C. LATE SEASON DROUGHT (September 16 to October 31)

Scenario 7: Medium and low land rice affected at vegetative/reproductive stage

It occurs as a result of early cessation of monsoon rains, The management practices areas follows.

- Provide protective irrigation through recycling of harvest rainwater.
- Provide irrigation at critical stages such as flowering, grain filling, etc. in alternate furrows in wide spaced crops.
- Crops like cowpea, maize, greengra (11 may be harvested for fodder purpose to avoid their failure as grain crops.
- then the soil becomes hard it is difficult to uproot groundnut from the field, sprinkle water. from water harvesting structures/nallahs to soften the soil.
- Under situation of complete failure of *kharif* crop dismantle H. In such situation or where land is remaining fallow, sow (dibble) the *pre-rabi* crops.
- .The ideal pre-rabi crops with residual moisture condition are horse gram , castor, niger, blackgram and sesam in uplands and well drained medium lands.
- Pre-position inputs, particularly seeds for the rabi crop.

Insects' pest management

The following insect/pests and diseases appear more frequently under drought situation for which it requires constant vigilance to take up timely control measures.

Rice

- In rice the mealy bug attack will be more. Thus the plants will look yellow, stunted and ,whitish. Mealy bugs are seen when the leaf sheath is detached. The pest can be controlled by spraying of dimethoate or methyl demeton @ 1 lit/ha in 500 lit of water.
- The problem of termites will be seen in rice, maize and other standing cereal crops which can be tackled by soil drenching with chlorpyrifos 20 EC @ 4-5 ml/litre of water or by adding chlorpyrifos 1.5% dust @ 20 - 25 kg/ha before final land preparation.

Gajapati District Disaster Management Plan-2022-23

- ❑ Grasshopper menace is also seen in rice. The pest can be tackled by dusting chlorpyrifos 1.5% dust/methyl parathion 2% dust @ 20-25 kg/ha on the crop and field bunds or spraying endosulfan 35 EC @ 1 lit/ha.

Pulses

- ❑ In arhar termite attack will be noticed. The pest attack can be reduced as suggested in case of rice.
- ❑ In greengram, blackgram, cowpea, country bean, the spread of YMV by insect vector may increase. Therefore, regular surveillance in the fields is essential. Manage the crop from insect vectors by spraying of dimethoate 1lit/ha or imidacloprid 125 ml/ha at 10-15 days interval.

Oilseeds

- ❑ In groundnut crop termites and white grub incidence is expected to be more. Methods suggested in rice may be followed to reduce the pest infestation.
- ❑ Incidence of leaf miner in groundnut may increase which can be managed by spraying with monocrotophos/ endosulfan/ chlorpyrifos @ 1 lit/ha at fortnight, intervals.

Vegetables

- ❑ In vegetable crops the incidence of mites is expected to increase under drought situation. The pest menace can be brought down by spraying of dicofol @ 1.5 lit/ha or propargite @ 1.5 lit/ha or fenazaquin 10 EC @ 500 ml/ha.

Cotton

- ❑ In cotton the incidence of sucking pests like Jassids, thrips and mites may increase. The spraying the crop with imidacloprid / thimethoxam / acetamiprid @ 125 ml or 125 g/ha will decrease the pest attack.
- ❑ The problem of termite attack in the crop can be managed in the same manner as suggested in case of rice.

Disease Management

- ❑ Drought condition during the month of August-September onwards shall result in severe incidence of foliar blast and brown spot diseases in rice. It is advised to spray the crop with tricyclazole (Beam/team) @ 0.06 to 0.1 % or Hinosan @ 0.25% or Casugamycin (0.2%) at 10-12 days intervals during drought period.
- ❑ Early drought result in late transplanting of rice which makes the crop vulnerable to sheath rot and sheath blight diseases. Maintenance of field sanitation followed by two spray at 10 days interval with validamycin (0.3%) or Tilt (0.15%) or carbendazim (0.2%) are advised.
- ❑ Bacterial wilt in most of the vegetable and other crops may occur in severe form during drought period following drought. Basal soil drenching with streptomycin (0.015%) or plantomycin (0.15%) or bacterinol (0.2%) at 5-7 days interval during dry period is advised.
- ❑ Alternaria and Cercospora blight: There is every chance of occurrence of *Alternaria* and/or *Cercospora* blight in oilseed, vegetable and cucurbits. Protective spray with mancozeb @ 0.3 to 0.4% may be done.

Gajapati District Disaster Management Plan-2022-23

A Few Recent Additions To Orissa Relief Code (ORC)

Sl. No	Item	Norms of Assistance
1	GRATUITIOUS RELIEF	
1	a) Ex-gratia payment to families of deceased persons	Rs.4.00 lakhs per deceased person including those involved in relief operation or associated in preparedness activities, subject to certification regarding cause of death from appropriate authority.
	c) Grievous injury regarding hospitalisation	Rs12,700/- per person requiring hospitalization for more than a week Rs.4,300/- per person requiring hospitalization for less than a week
	e) Gratuitous relief for families whose livelihood is seriously affected	Rs.60/- per adult and Rs 45/- per child, not housed in relief camps.State Govt. will certify that,(i) these persons have no foodreserve, or their food reserves have been wiped out in the calamity, and (ii) identified beneficiaries are not housed in relief camps.Further State Govt. will provide the basis and process for arriving at such beneficiaries district-wise. Period for providing gratuitous relief will be as per assessment of the State Executive Committee(SEC) and the central team (in case of NDRF). The default period of assessment will upto 30m days, which may be extended upto 60 days in the first instance, if required, and subsequently upto 90 days in case of drought/pest attack
2	SEARCH & RESCUE OPERATION	
	a) Cost of search & rescue measures/evacuation of people affected/likely to be affected. b) Hiring of boats for carrying immediate relief and saving lives.	As per actual cost incurred, assessed by SEC and recommended by the Central Team (in case of NDRF). - By the time the Central Team visited the affected area, these activities are already over. Therefore, the State level Committee and the Central Team can recommend actual/near- actual costs. As per natural cost incurred, assessed by SEC and recommended by the Central Team (in case of NDRF).

Gajapati District Disaster Management Plan-2022-23

3	RELEF MEASURES	
	a) Provision for temporary accommodation , food, clothing,medical care, etc for people affected/evacuated and sheltered in relief camps	<p>As per assessment of need by SEC and recommendation of the Central Team (in case of NDRF) for period up to 30 days. The SEC would need to specify the number of camps , their duration and the number of persons in camps. In case of continuation of a calamity like drought, or widespread devastation caused by Earthquake or flood etc. this period may be extended to 60 days, and upto 90 days in cases of severe drought. Depending on the ground situation, the SEC can extend the time period beyond the prescribed limit subject to the expenditure on this account should not exceed 25% of SDRF allocation for the year.</p> <p>Medical care may be provided from NHRM.</p>
	b) Air dropping of essential commodities	<p>As per actual , based on assessment of need by SEC and recommendation of the Central Team (in case of NDRF)</p> <p>The quantum of assistance will be limited to actual amount raised in the bills by the Ministry of Defence for airdropping of essential supplies and rescue operations only.</p>
	c) Provision of emergency supply of drinking water in rural areas and urban areas	<p>As per actual , based on assessment of need by SEC and recommendation of the Central Team (in case of NDRF) up to 30 days and may be extended upto 90 days in case of drought. Depending on the ground situation, the SEC can extend the time period beyond the prescribed limit subject to the expenditure on this account should not exceed 25% of SDRF allocation for the year.</p>
4	CLEARANCE OF AFFECTED AREAS	
	a) Cleanrance of debris in public areas	<p>As per actual cost within 30 days from the date of start of the work based on assessment of need by SEC for the assistance to be provided under SDRF and as per assessment of the Central Team for assistance to be provided under NDRF.</p>

Gajapati District Disaster Management Plan-2022-23

	b) Draining off flood water in affected areas	As per actual cost within 30 days from the date of start of the work based on assessment of need by SEC for the assistance to be provided under SDRF and as per assessment of the Central team(in case of NDRF).
	c) Disposal of dead bodies/Carcases	As per actual, based on assessment of need by SEC and recommendation of the Central Team (in case of NDRF)
i)	Assistance for land and other loss a) De-silting of agricultural land (where thickness of sand/silt deposit is more than 3” to be certified by the competent authority of the State Government)	Rs. 12, 200/- per hectare for each item. (Subject to the condition that no other assistance/subsidy has been availed of by/is eligible to the beneficiary under any other Government Scheme)
	b) Removal of debris on agricultural land in hilly areas	
	c) De-silting/ Restoration/ Repair of fish farms	
	d) Loss of substantial portion of land causes by landslide, avalanche, change of course of rivers.	Rs.37,500/-per hector to only those small and marginal farmers whose ownership of the land is legitimate as per revenue records.
B.	Input subsidy (where crop loss is 33% and above)	
5	a) For agriculture crops, horticulture crops and annual plantation crops	Rs.6,800/-per ha.inrainfed areas and restricted to sown areas. Rs. 13,500/- per ha. In assured irrigated areas, subject to minimum assistance not less than Rs.2000/-and restricted to sown areas.
	b) Perennial crops	Rs.18,000/- ha. for all types of perennial crops subject to minimum assistance not less than Rs.2000/- and restricted to sown areas.

Gajapati District Disaster Management Plan-2022-23

	c) Sericulture	Rs.4,800/-per ha. for Eri, Mulberry, Tussar Rs.6,000/-per ha.for Muga.
ii)	Input Subsidy to farmers having more than 2 ha. of landholding	Rs.6,800/-per hecter in reined areas and restricted to sown areas. Rs.13,500/-per hecter for areas under assured irrigation and restricted to sown areas. Rs.18,000/-per hecters for all types of perconial crops and restricted to sown areas. Assistance may be provided where crop loss is 33% and above, subject to ceiling of 2 ha. per farmer.
6	ANIMAL HUSBANDRY ASSISTANCE TO SMALL AND MARGINAL FARMERS	
	l) Replkacement of milch animals, draught animals or animals used for haulage.	Milch Animals – Rs.30,000/- Buffalo/cow/camel/yak/Mithun etc. Rs.3,000/- Sheep/Goat/Pig Drought animals- Rs.25000/- Camel/horse/bullock, ctc Rs.16,000/-Calf/Donkey/Pony/Mule The assistance may be restricted for actual loss of economically productive animals and will be subject to a ceiling of 3 large milch animals or 30 small milch animals or 3 large draught nimals or 6 small draught animals per household irrespective of whether a household has lost a large number of animals.(The loss is to be certified by the Competent Authority designated by the State Government). Poultry:- Poultry @50%-per bird subject to a ceiling of assistance of Rs.5000/-per beneficiary household. The death of the poultry birds should be on account of a natural calamity. Note:- Relief under these norms is not eligible if the assistance is available from any other Government Scheme,e.g.loss of birds due to Avain Influenza or any other diseases for which the Department of Animal Husbandry has a separate scheme for compensating the poultry owners.

Gajapati District Disaster Management Plan-2022-23

	<p>ii) Provision of fodder/food concentrate including water supply and medicines in cattle camps.</p>	<p>Large animals-Rs.70/-per day. Small animals-Rs.35/-per day. Period for providing relief will be as per assessment of the State Executive Committee (SEC) and the Central Team (in case of NDRF). The default period for assistance will be upto 30 days, which may be extended upto 60 days in the first instance and in case of severe drought up to 90 days. Depending on the ground situation, the State Executive Committee can extend the time period beyond the prescribed limit, subject to the stipulation that expenditure on this account should not exceed 25% of SDRF allocation for the year. Based on assessment of need by SEC and recommendation of the Central Team, (in case of NDRF) consistent with estimates of cattle as per Livestock Census and subject to the certificate by the competent authority about the requirement of medicine and vaccine being calamity related.</p>
	<p>iii) Transport of fodder to cattle outside cattle camps</p>	<p>As per actual cost of transport, based on assessment of need by SEC and recommendation of the Central Team (in case of NDRF) consistent with estimates of cattle as per Livestock Census.</p>
7	FISHERY	
	<p>i) Assistance to Fisherman for repair/replacement of boats, nets-damaged or lost</p> <p style="padding-left: 40px;">... Boat</p> <p style="padding-left: 40px;">...Dugout-Canoe</p> <p style="padding-left: 40px;">....Catmaran</p> <p style="padding-left: 40px;">....net</p> <p>(This assistance will not be provided if the beneficiary is eligible or has availed of any susidy/assistance,for the instant calamity,under any other Government Scheme)</p>	<p>Rs.4,100/-for repair of partially damaged boats only Rs.2,100/- for repair of partially damaged net Rs.9,600/- for replacement of fully damaged boats Rs.2,600/- for replacement of fully damaged net</p>

Gajapati District Disaster Management Plan-2022-23

	ii) Input Subsidy for fish seed farm	Rs.8, 200 per hectare.
		(This assistance will not be provided if the beneficiary is eligible or has availed of any subsidy/assistance for the instant calamity. Under any other Government Scheme, except the one time subsidy provided under the Scheme of Department of Animal; Husbandry, Dairying and Fisheries, Ministry of Agriculture)
8	HANDICRAFTS/HANDLOOM ASSISTANCE TO ARTISANS -	
	i) For replacement of damaged tools/equipment	Rs.4,100 per artisan for equipments subject to certification by the competent authority designated by the Government about damage and its replacement.
	ii) For loss of raw material/goods in process/finished goods.	Rs.4,100 per artisan for raw material. Subject to certification by the competent authority designated by the Government about loss and its replacement.
9	HOUSING	
a	a)Fully damaged/destroyed houses	
	i) Pucca House	Rs. 95,100/- per house, in plain areas Rs.1,01,900/- per house, in hilly areas including integrated Action Plan (IAP) districts
	ii) Kutcha House	
	b) Severely damaged houses	
	i) Pucca House	
	ii) Kutcha House	
	c) Partially Damaged Houses-	
	i) Pucca (other than huts) where the damage is at least 15%	Rs.5,200/- per house
	ii)Kutcha (other than huts) where the damage is at least 15%	Rs.3,200/- per house

Gajapati District Disaster Management Plan-2022-23

	d) Damaged/destroyed huts	Rs.4,200/- per hut, (Hut means temporary, make shift unit, inferior to Kutcha house made of thatch and plastic sheets etc. traditionally recognized as hut by the State/District authorities) Note :- The damaged house should be an authorized construction duly certified by the Competent Authority of the State Government
	e) Cattle shed attached with house	Rs.2,100/- per shed.
10	INFRASTRUCTURE	
	Repair/Restoration (of immediate nature) of damaged infrasture: (1) Roads & bridges (2) Drinking Water Supply Works. (3) Irrigation (4)Power (only limited to immediate restoration of electricity supply in the effected areas) (5) Schools, (6) Primry Health Centres, (7) Community assets towards by Panchyat	Activities of immediate nature: Illustrative lists activities which may considered as works of an immediate nature are given in the enclosed appendix. Assessment of requirements: Based on assessment of need, as per State, costs/retes.

Gratuitous Relief

- Exgratia enhanced to Rs 1.50 lakh each due to flood / cyclone / drought / earthquake / fire.
- In case of lightning it is Rs.1,50,000/- (out of CMRF)
- Scale is same irrespective of no. of persons dead in a family
- Gratuitous relief enhanced to 1 Kg for adult and 500 Gram of children

Gratuitous relief to prevent starvation

- Sarpanch- 10 days
- BDO-30 days
- Sub-Collector-45 days
- Collector – 60 days
- Grievous injury requiring hospitalization for more than one week- Rs.7,5000/-
- Grievous injury requiring hospitalization for less than one week Rs.3100/-
- Grievous injury requiring hospitalization for more than one week Rs.9,300/-

Gajapati District Disaster Management Plan-2022-23

- Loss of limb or eyes (40%) – Rs.43,500/-
- Loss of limb or eyes (more than 75%) Rs.62,000/-
- for clothing per family(washed away/Fully damaged) Rs 1300/-
- for utensils per family(washed away/Fully damaged) Rs 1400/-
- Gratuitous relief per family in dire need of immediate substance per adult Rs.40/- Per
child Rs.30/-

Assistance To Farmers\

- Desilting /removal of debris in hilly area/repair of fish farms/agriculture input subsidy with crop loss of 50% and above-Rs.8,100/- per Hect
- in rain fed areas Rs 4,500/- per hectre
- in areas with assured irrigation Rs 9,000/-per hectre
- in case of perennial crops Rs 12,000/ per hect.
- for muga Rs 4000/- per hect.
- For Mulberry, Tussar Rs.3,200/- per Hect.

Assistance to fishermen

- Subsidy will be provided for repair/replacement of boats and nets subject to ceilings on subsidy as per SGSY norms
- for input subsidy for fish seed farm Rs.6000/- per hectare
- for repair of partial damaged boat Rs. 3,000/-
- for repair of partial damaged net Rs. 1500/-
- for replacement of fully damaged boat Rs. 7,000/-
- for replacement of fully damaged net Rs. 1850/-

Assistance to Artisans in handicrafts

Traditional crafts

- For damaged equipments- Rs3000/- per artisan
- For raw material-Rs 3000/- per artisan

Damage of Houses

- Fully damaged pucca house-Rs 70,000/-
- Fully damaged kucha house-Rs 15,000/-
- Severely damaged pucca house-Rs 6,300/-
- Severely damaged kucha house-Rs 3,200/-
- Partially damaged house(both pucca/kucha)-Rs 1900/-
- Hut damaged /destroyed - Rs2,500/- per hut
- Cattle shed attached to house Rs.1,250/- per shed

Gajapati District Disaster Management Plan-2022-23

Assessment by NCCM/NCCF/CRF Committee

- Supply of drinking water
- Provision of medicines
- Provision of insecticides /disinfectants
- Medical care for cattle and poultry
- Temporary accommodation
- Replacement of medical equipments/infrastructures
- Clearance of debris
- Draining off flood water
- Disposal of dead bodies

Funds from CRF

- Training to specialist multi disciplinary groups/state govt personnel
- Procurement of essential search and rescue equipments and communication equipments
- Installation of four digit public utility phones

CHAPTER-6

CHAPTER-7

Profile of District Hospitals; Community and Primary Health Centers

Administrative set- up:

The overall charge of the medical administration of the district is vested at Chief District Medical Officer (CDMO). His headquarter is located at Paralakhemundi. Under the present set up there are three Assistant District Medical Officers one in charge of Medical, another in charge of family Welfare and third one in charge of Public Health of the district.

The other four wings named NVBDCP and District Tuberculosis Unit is working at District Head quarter. District malaria Officer (DMO) is headed to the NVBDCP Section with prime duty of prevention and control of malaria in the district and District Tuberculosis Officer is headed to District Tuberculosis Unit with prime duty of prevention and control of TB. The District Leprosy officer is headed to District Leprosy Section to Eradicate the Leprosy in the district. In other hand District Surveillance medical officer is headed to district surveillance section with responsibility to control and prevention of epidemics in the district collecting and analyzing the data.

At Block level overall charge of Medical administration is vested at Medical Officer I/c of concerned Block under the Block setup there are some Medical Officers and some technical and non-technical persons are present to assist the Medical Officer I/c in both curative and preventive service at CHC.

In CHC setup the Block was divided into some sectors which consist of 3 to 7 subcentres. In a Sector multipurpose Health Supervisor Male and Female were posted. In a subcentre a Multipurpose Male and female were posted and they were supervised by Health supervisor male and female. The detail sanctioned post of the District in Annex-1.

The concerned Medical Officer I/c of the Block were designated as drawing and disbursing Officer (DDO).

MEDICAL AND PUBLIC HEALTH SERVICES

The district consists of 7 Blocks with 8 Community Health Centers. The district is divided into hilly and plain area, out of seven blocks 5 are hilly in terrain and remaining two are plain blocks. During the hot whether from March to June the heat in the interior is intensive. The December is the coolest month of the year. The proten of the above hilly are unhealthy for Malaria, Diarrhoes and malnutrition. In the plain especially fever with Malaria is the common complain. On the whole the climate is moderate.

Gajapati District Disaster Management Plan-2022-23

HEALTH DELIVERY SYSTEM

Dist. Head Quarter Hospital	1
Community Health Centers	8
PHC(N)s	20
Govt. Hospital	1
No of Sub Centers	136
No. of Health Sectors	32

VITAL STATISTICS

The district has benefits of registration system for collection of vital statistics from a long time. As the district was a part of the Madras presidency before merge with the Orissa on 1st April 1936, the madras registration of Birth and Deaths Act 1899 (Act.III of 1899) was in force in the district. Formally information about vital occurrence in the district were collected by the village head man in the rural areas. They reported monthly to the Talukaoffice who forward those returns to Directors of Health Services.

The Orissa Grama Panchayat Act, 1948, provided registration of births and deaths as one of the obligatory functions of the Grama Panchayats. The village Choukidar was responsible for collection of vital events, but the police and Grama Panchayat authorities together exercised a lot of diarchal control over him, resulting in deterioration of the system. After abolition of the Choukidari system in 1965, various attempts were made for accurate collection of information.

The State Government issued an Ordinance on 10th January, 1967, known as the Orissa Grama Rakhi Ordinance, 1967, subsequently replaced by the Orissa Grama Rakhi Act, 1967 on 29th July, 1967 and the Orissa Grama Rakhi Rules, 1967 on 11th May, 1969 under which Grama Rakhis, besides all other duties, were required to report births and deaths occurring in their respective jurisdictions. As per the new system the officers in-charge of police stations and out-posts for rural areas and the Health Officer, in his absence, the Executive Officer of the urban local body are appointed as Registrar of Births and Deaths in their respective jurisdictions. The Chief District Medical Officer and the Assistant District Medical Officer (P. H.) are declared as the District Registrar of Births and Deaths and the Additional District Registrar of Births and Deaths respectively, while the Director of Health Services, Orissa acts as the Chief Registrar. The head of the household has been made responsible to report on the vital occurrence within a stipulated time. Provisions like late registration charge and fine upto fifty rupees have also been provided for negligence in reporting the events.

There are 9 Birth and Death registration unit in our District.

1. Office of the Health Officer; Municipality Paralakhemundi.
2. Office of the Health Officer; NAC kasinagar.
3. Office of the Medical Officer I/C; CHC Kasinagar
4. Office of the Medical Officer I/C; CHC Gumma.
5. Office of the Medical Officer I/C; CHC Gurandi
6. Office of the Medical Officer I/C; CHC Rayagada.
7. Office of the Medical Officer I/C; CHC B.K.Pada.
8. Office of the Medical Officer I/C; CHC R Udayagiri.
9. Office of the Medical Officer I/C; CHC Mohana.

There are 8 community Health centers (CHC) in the district, District head quarter Hospital (DHH) is provided the necessary service to the peoples. The funds for sterilization are provided to all Health units to conduct sterilization Operations. The staffs of the institutions are also given incentive money for such activities.

Each community Health centers (CHC) has a number of sub centers functioning under it and each sub center is managed by Health Worker female and a Health worker male.

The sub centers to have 3000 to 5000 population. For hill area the sub centre have about 3000 population and in plain area the sub centre have about 5000 population.

The Gajapati district consists of 136 sub centers in 7 Blocks. The detail block wise sub centers are in Annex-2.

Again the District contains 20 Nos of PHCs and one Area hospital at Nuagada of Nuagada Block. The detail Block wise PHCs and area Hospital are in Annex-3.

The I. U. C. D. insertion and sterilization operation are made available at the block level. Clinical and other follow-up services are also rendered to the beneficiaries. Complicated cases are referred to the consultant gynaecologists for advice. The sterilization operation is relatively more popular. The recanalization facility available in medical college hospitals goes further in raising popular faith in this kind of operation. Financial benefits like compensation for loss of wages and transport charges are given to those who undergo vasectomy or sterilization operation. The male Government servants who accept vasectomy methods are provided with free medical services and leave from duty for six working days. The female Government servants who take to family planning operation are allowed 14 days of special casual leave. In addition, recently Government have issued Green Cards providing a number of benefits to the persons having not more than two children undergoing vasectomy or

Tubectomy operation below their reproductive age group. As per Govt. of Odisha order the issue of Green cards are stopped to those who undergo sterilization operation after 12/09/2012.

Gajapati District Disaster Management Plan-2022-23

1.34- Incidence of Major Diseases during last 5 years (2016-2021):

Sl. No.	Name of the Disease	Year	No. of Incidents/ Cases Treated	No. of Deaths due to disease
1	Malaria	2016	12062	0

CHAPTER-8

Administrative Setup

NATIONAL RURAL HEALTH MISSION (NRHM)

National Rural Health Mission (NRHM) was launched on 12th April 2005 in India. It is one of the biggest-ever integrated health initiatives in the health sector in the last 50 years. NRHM is not a project but an over arching umbrella integrating the on going vertical programmes and addressing issues related to the determinants of health like sanitation, Nutrition, and safe drinking water.

The National Rural Health Mission seeks to adopt a sector wide approach and aims at systematic reforms to enable efficiency in health services delivery. NRHM subsumes key national programmes namely the RCH II, General Curative Care, National disease control programmes and the integrated disease surveillance project. NRHM will also enable the mainstreaming of Ayurvedic, Yoga, Unani, Siddha and Homeopathy system of medicine (AYUSH).

Goal of NRHM:-

The Goal of Mission is to improve the availability of and access to quality health care by people especially for those residing in rural areas, the poor, women and children. Mission adopt a synergistic approach by relating Health to determinants of good health viz. of - nutrition, sanitation, hygiene and safe drinking water.

- Increase Utilisation of first Referral Units from less than 20 to 75%.
- Upgrading Community Health Centres to Indian Public Health Standards.
- Japanese Encephalitis Mortality Reduction Rate : 50% by 2010 and sustaining at the level until 2012.
- Cataract Operation : Increasing to 46 lakhs per year until 2012.

NRHM in Odisha

NRHM was Launched in the State of Orissa by Hon'ble Chief Minister on 17th June 2005 in presence of Hon'ble Union Minister, Health & Family Welfare, Govt. of India

MISSION GOAL

1. Mother & Child Care
2. Institutional Delivery
3. Position of ASHA
4. Complete Immunization
5. Quality Care

Gajapati District Disaster Management Plan-2022-23

6. Mobile Health Unit
7. Promotion of Toilet
8. Safe Drinking Water
9. AYUSH in Mainstream
10. Health Education & Nutrition
11. General Curative Care

COMPONENTS UNDER NRHM

New Initiatives under NRHM

1. Provision of a Female health activist in each village (Accredited Social Health Activist (ASHA)).
2. Untied Fund at Sub Centre Level.
3. Upgrading CHCs as per Indian Public Health Standard.
4. Formation of RogiKalyanSamiti.
5. Mobile Medical Units
6. Mainstreaming AYUSH.
7. Intersectoral Convergence

B : Ongoing Programmes

- (i) Reproductive Child Health(RCH) programme - II
- (ii) Immunization
- (iii) National Disease Control Programmes

Provision of a Female health activist in each village (Accredited Social Health Activist (ASHA)).

NRHM initiative provides for a female Accredited Social Health Activist (ASHA) who shall act as the interface between the community and the public health system. ASHA is in fact a bridge between the ANM/AWW and the village and is accountable to the Panchayat.

She is an honorary volunteer receiving performance based compensation for promoting Universal immunization, referral and escort services for RCH care, construction of household toilets and other health care delivery programmes. She will be provided with a Drug kit containing generic AYUSH and allopathic formulation for common ailments.

Criteria for selection of ASHA (Rural):

- ASHA must be a woman (Married/widow/divorced) and resident of the village.
- She must be in the age group of 25 to 45 years.
- Minimum educational qualification of the candidate for selection of ASHA will be Class-X pass. If not available class-VII may be considerable.

Gajapati District Disaster Management Plan-2022-23

- Ability to read and write in odia with effective communication skill and leadership qualities shall be given priority in selection.

Untied fund at Sub Centre level

Rs.10000/- per SubCentre per annum to be kept in joint account of Sarpanch and ANM. To be spent on:-

- Minor repair of Sub Centre.
- Payments for cleaning after child birth.
- Transport during emergency to appropriate referral centre.
- Transport of samples during epidemics.
- Payment of wages for environmental sanitation.
- Payment/Reward to ASHA for certain specific activities.
- Should not be used for Salary, Vehicle purchase & expenses of Gram Panchayat.
- Transport of samples during epidemics.
- Payment of wages for environmental sanitation.
- Payment/Reward to ASHA for certain specific activities.
- Should not be used for Salary, Vehicle purchase & expenses of Gram Panchayat.

Upgrading CHCs as per Indian Public Health Standard.

Provision quality around the clock referral care at CHC level is an important strategic intervention under NRHM. In order to ensure quality of services, the Indian Public Health Standards are being set up for CHCs so as to set up a yard stick to measure the services being provided. The Programme includes provision of :

- OT/ Labour room/ X-Ray etc.
- Blood transfusion facilities
- Increased manpower including specialist services.
- Up gradation of infrastructure

Under NRHM, the purpose is to provide sustainable quality health care with accountability, and people's participation along with transparency. This requires the development of hospital Management Committee or RogiKalyanSamiti. This is to be constituted in the district , sub district hospital and CHCs / PHCs, taking the cross section of the community , local representatives and political regime. It will be a Non Government agency registered under socialists act.

ROGI KALYAN SAMITTE (RKS)

- RogiKalyanSamiti (RKS) is such an innovation where policy makers and the people were drawn together to think in terms of joint ventures to deliver better Health Care in for of RogiKalyanSamiti.
- There is 28 No of RKS are functioning in the District. 1 at DHH paralakhemundi. Each one at CHC head quarter and each one at all PHCs and Area hospital.

Activities Undertaken by RKS at DHH

- Complain box installed at the entry point of the hospital to identify the problems faced by the patients in accessing the services at the hospital.
- Provision of Free treatment and investigation for poor and needy patients.

Gajapati District Disaster Management Plan-2022-23

- Lodging arrangements for patients have been improved. The Bed sheets & Pillow cover is now changed on a regular basis to keep the patient beds clean & safe.
- Special out-reach immunization camps in difficult areas of the Block with mobility support by RKS.
- Hospital waste disposal system adopted for sustainable and environmental friendly measures, hospital cleanliness has been improved, as there is regular maintenance of latrine, bathroom, and adequate light & fan of the Hospital which are being re-installed from RKS fund.
- Flower garden have been made in the Campus of the Hospital.
- Regular Meetings (GB & EB) conducted to review and monitor the performance of the Health facility which is maintained properly by RKS.
- Better laboratory services.
- Timely submission of Report Return (Monthly, Quarterly & Annual Reports)

5. Mobile Medical Units

- Under NRHM one Mobile Medical Unit to be provided to each district to supplement existing system in remote inaccessible areas.

Now the Mobile Medical Unit is renamed as Mobile health team after launching of RBSK.

GKS (GaonKalyanSamiti)

The Concept

The implementation framework of NRHM provides a scope for decentralized planning & monitoring process up to the grassroots level. To facilitate this, GaonKalyanSamitis are being formed at the revenue village level. GKS is envisaged as the community level platform to facilitate public health related activities at village level. The samiti will be headed by the Ward member of the village.

Other member of the GKS are:

- Anganwadi Worker; member convener.
- ASHA; facilitator.
- SEM
- President and Secretary of SHG of the village
- Representative of NGO.

Roles and responsibility of GKS

- To involve the community in planning and implementation of health and other allied activities of the village level.
- To create awareness on the all Health activities and Hygiene and sanitation
- To initiate action for the management of health related issues and problems at local level.

To take the above activities the GKS shell receive fund from various source.

District achievement.

- No. of revenue villages in the District- 1394
- No.of GKS formed – 1394
- No. of Accounts opened – 1382

Gajapati District Disaster Management Plan-2022-23

RASHTRIYA BAL SWASTHYA KARYAKRAM (RBSK)

RashtriyaBalSwasthyaKaryakram (RBSK) is a new initiative aimed at screening over 27 crore children from 0 to 18 years for 4 Ds - Defects at birth, Diseases, Deficiencies and Development Delays including Disabilities. Children diagnosed with illnesses shall receive follow up including surgeries at tertiary level, free of cost under NRHM.

Mainstreaming AYUSH

- Seeks to revitalize local health traditions and mainstream AYUSH infrastructure, manpower and drugs.
 - Space shall be provided for AYUSH practitioner and pharmacist in CHCs/PHCs.
 - PHC(N) shall be upgraded to include two Doctors by inducting AYUSH practitioner.
 - Necessary steps have been initiated to post 300 AYUSH doctors in PHCs against vacancies.
- Ayurveda
 - Homoeopathy
 - Unani
 - Siddha
 - Yoga and Naturopathy

Intersectoral Convergence

- NRHM envisage that determinants of health, like sanitation, nutrition and safe drinking water influences general health to a large extent. Therefore it is considered necessary to forge linkages with department of Women & Child Development, Rural Development Department, Education, Panchayat Raj, Rural Water Supply & Sanitation Department.
- Collaboration between the ANM and AWW at village level.
- Collaboration between the ICDS supervisor and lady health visitor at the sectoral level.
- The village sanitation committee redesignated as Village Health & Sanitation Committee.
- Linkages with Panchayati Raj Institution through sensitization of PRI members.
- PRIs included as members of RogiKalyanSamiti or hospital management committee.

Ongoing Programmes under NRHM:

Reproductive & Child Health (RCH) Programme - II.

- Reproductive and Child Health (RCH) Programme-II is an ongoing programme under NRHM, with the objective of improving the Reproductive Health of men and women .
- The focus of the programme is to reduce the Maternal and Child Mortality and Morbidity with emphasis on rural health care. Adolescent Health and Gender, Urban Health, Tribal Health and Public Health and Public Private Partnership are the other supporting focus areas in RCH-II.
- Flexible financing, decentralized planning and improved management capacity are some of the innovations which have been introduced for achieving the desired milestones.

Immunisation

Immunization is one of the most well-known and effective methods of preventing childhood diseases. With the implementation of Universal Immunization Programme (UIP), significant achievements have been made in preventing and controlling the Vaccine Preventable Diseases (VPDs). Immunization has to be sustained as a high priority to further reduce the incidence of all VPDs, control measles, eliminate tetanus and eradicate poliomyelitis.

- Full immunization (i.e. received one dose of BCG, three doses of DPT and OPV each and one dose of Measles before one year of age) gives a child the best chance for a healthy life. Immunization is one of the safest and most cost-effective health interventions available in the world today. Preventing disease before it occurs saves money, energy, and lives.
- Full immunization is attainable.
- Immunization is a key strategy to child survival. By protecting infants from VPDs, immunization significantly lowers morbidity and mortality rates in children. The security provided to families can lead to lower birth rates.
- Immunization is an indicator of a strong primary health care system.

The following are the 7 targeted vaccine preventable diseases along with their symptoms, mode of spread and methods of prevention.

- Tuberculosis
- Polio
- Diphtheria
- Pertussis
- Tetanus
- Hepatitis B
- Measles

National Disease Control Programme

National Vector Borne Disease Control Programme (Malaria)

The goal of the NVBDCP programme is to reduce Malaria death by 50% by 2010. Vector control activities are parasite index and in areas with resistance to synthetic Parathyroid. Larvivorous fish and treated bed nets have been distributed. Besides BCC activities have been undertaken in the community by creating awareness. This programme has helped in the decline of malaria death from 465 in 2002 to 249 in 2005

The detail achievement of the District is given in Annex-6.

National Leprosy Elimination Programme (NLEP)

The objective of the programme is to eliminate leprosy by bringing all the cases of leprosy under Multi Drug Therapy (MDT). As of now 20 districts have achieved leprosy elimination status. This has been possible, as a result of intense BCC activities, training integrated of vertical infrastructure of leprosy into general health.

Gajapati District Disaster Management Plan-2022-23

MDT started in the Gajapati district in the year 1983. Leprosy caseload at the time was 92 per 10000 populations. The aim of National Leprosy Eradication Programme is to reduce Leprosy caseload to 1 or below 1 per 10000 populations. Now the caseload of Gajapati district is 23 and prevalence rate of Gajapati district is 0.38 per 10000 populations. We have achieved the goal of Leprosy elimination since March-2005. Now the programme is being implemented through General Health Care staff. MDT (Multi Drug Therapy) is available at all Govt. Health center and sub-centers at free of cost.

Revised National Tuberculosis Control Programme (RNTCP)

RNTCP is uniformly operational across the state through the strategy is directly observed treatment short course(DOTs). The chest symptomatic are subjected to sputum examination & patients positive for acid fast bacilli are provided full course of treatment under the direct supervision of DOTs provider. Programme is implemented through 31 units in districts, 536 microscopy centers & 30370 DOTs providers. Success rate of new smear positive case is 85%, case detection is 54% & seamer conversion is 86%.

Infrastructure

Under this programme one DTC has been constructed at District headquarter and 11nos PHIs has declared as DMC (Designated Microscopy centers) or (RNTCP laboratories) & upgraded.

Objective of the Programme:

- To achieve more than 85% cure rate among the New Sputum smear-positive TB cases registered.
- To detect at least 70% of the estimated new sputum smear-positive cases after achieving objective.
- To provide short-course chemotherapy (SCC) to all TB-diagnosed patients for the recommended duration of treatment to ensure that they are cured.
- To ensure the implementation of DOTS (Directly Observed Treatment-short-Course) for treatment of all TB cases registered in the RNTCP.

Goal of the programme:

To control Tuberculosis in the district and to achieve 85% cure rate among the New sputum smear-positive TB cases registered.

Activities under taken for control Tuberculosis in the District:

Eleven PHIs (Peripheral Health Institutions) have been functioning in Gajapati District, they are:- 1. Paralakhemundi 2. Gumma 3. Kasinagar 4. Khandava 5. Gurandi 6. Rayagada 7. B. Khajuripada 8. R-Udayagiri 9. Chandragiri 10. Mohana 11. Adava.

All the above PHIs are declared as DMCs (Designated Microscopy Centers) In the DMCs Laboratory Technicians (Path/Non-Path) are engaged for sputum examination. Under the RNTCP programme DOTS (Directly Observed Treatment-short-Course) are provided to the TB patients on free of cost. To supervise the DOTS treatment 2nos of STS has been posted under this Programme and RNTCP has provided motorcycles for their supervisory tours. All the Doctors, LTs (Path/Non-Path), STS, Health Workers and AWWs have been imparted training on RNTCP for successful implementation of the programme in the district.

Gajapati District Disaster Management Plan-2022-23

Activity under taken to Increase the Performance

- All the PHC (N) of Gajapati district has already been involved on RNTCP as PHIs.
- In all the PHC (N) s sufficient RNTCP medicines are kept stock for distribution to DOT providers.
- All the Health Workers (Female) / Pharmacist/ Staff Nurse/ MPHS (F/M) of Gajapati district has already been imparted training on RNTCP in the District level to improve the supervisory standard.
- All the Medical Officers are already directed to supervise the TB Cards and to instruct all the HWs to Up-to-date TB cards regularly.
- All the PHI Medical Officers and Non-PHI Medical Officers are already trained on RNTCP.

Disease Surveillance

A disease surveillance unit was instituted in 12 districts in the year 1999 soon after the super cyclone to monitor communicable disease & some vaccine preventable disease. The success of the programme led the health managers to extend it, to rest 18 districts, with the support of OHSDP & WHO. The system adapts to daily made during natural calamities like flood & heat wave. The system have helped to successfully control after effects of natural calamities. Orissa has been included in 2nd phase (2005-06) for implementation of IDSP. IDSP is a decentralized district based surveillance system covering communicable as well as an non communicable disease.

An Integrated Disease Surveillance Project is functioning at the CDMO with support of National Health Mission (NHM) Odisha to monitor and asses the epidemic situation in the District. The ground level data / report was collected from sub centers through Sector supervisors in the weekly Saturday sector meeting by 's' form and the CHC will collect the consulted data of the total sectors will be collected from the supervisors by 'P' form in the weekly Saturday sector meeting. The date of outdoor patients was also collected from all the PHC level in 'P' forms by the CHC. The date of morbidity of the patients was also collected from laboratory by laboratory Technicians in 'L' forms by the CHC. The consulted 'P' and 'L' forms will be sending to the district by the CHC medical officer. The IDSP cell of the district will analyses the data's from all CHCs take the necessary steps for prevention of the epidemic.

The detail manpower position of NRHM of Gajapati District

NUHM

- Union cabinet taken decision for implementation of NUHM on 1st May 2013
- NUHM considered as a Sub-Mission of over-arching NHM and NRHM also act as Sub-Mission under NHM.
- NHM components (NRHM, NUHM, DCP , NCD & Infrastructure maintenance)
- Launched at National level on 20th January 2014
- State level launched by Chief Minister of Odisha on 23rd February 2014.

Goal

- To improve the health status of the urban population in general, particularly of the poor and other disadvantaged sections.

In Gajapati District the Paralakhemudi town in covered under NUHM.

RashtriyaSwasthyaBimaYojana (RSBY) , BijuKrushakKalyanYojana (BKKY & OSTF)

RSBY

- Ministry of Labour and Employment, Government of India has launched a health insurance scheme for BPL families which is called RashtriyaSwasthyaBimaYojana (RSBY).
- The beneficiary is any Below Poverty Line (BPL) family, whose information is included in the district BPL list prepared by the State government.
- RashtriyaSwasthyaBimaYojana provides cover for hospitalization expenses uptoRs. 30,000/- for a family of five on a floater basis. Transportation charges are also covered upto a maximum of Rs. 1,000/- with Rs. 100/- per visit.
- Beneficiaries need to pay Rs. 30 per family at the time of enrollment.
- In case of new policy, the Scheme shall commence operation from the 1st of the succeeding month and over on 30th April
- Hospitalisation means admission to hospital for 24 hours or more. RSBY applies to such hospitalization. However, it includes such day care treatments entailing less than 24 hours as are listed out.
- Day care surgeries are the procedures which require a surgical intervention but patient need not be admitted to hospital after the surgery.
- Any disease that was present at any time in the past (including any disease, which the insured person may not have been aware of) is treated as pre-existing. Pre-existing diseases are covered under RSBY from day one itself. There is no discrimination with respect to the pre-existing diseases.

Gajapati District Disaster Management Plan-2022-23

- RSBY does not cover OPD expenses, or expenses in hospitals which do not lead to hospitalisation.
- Hospitalisation can be for both medical and surgical procedures. Therefore, in all the surgical cases, whether there is a need for hospitalization or can be handled on a day care basis, are covered but medical procedures which need hospitalization for more than 24 hours are covered.
- Both normal and caesarean deliveries are covered under RSBY.
- A new-born is covered under RSBY since birth automatically for the remaining period of the health insurance policy.
- Food only for the person who is hospitalized is covered in the package rate.
- Based on the qualifying criteria, both public and private hospitals will be empanelled by the insurance company. The beneficiary will have the option to choose hospitals where they want to go.
- No payment for the treatment cost up to Rs. 30000/- or the balance amount in the smart card, whichever is less.
- It is the responsibility of the hospitals to arrange for all the medicines and tests needed for the treatment.
- Fingerprint verification is to prevent fraud and misuse of the smart card.
- Fingerprint of any enrolled member of the family can be provided.
- It will be the responsibility of the hospital and the insurance company to provide for alternative arrangements if the smart card machine is not working. The beneficiary will not be denied treatment in any case if the identity of the beneficiary is established.

A patient should immediately inform the insurance company through the toll free number provided in the broacher given to him at the time of enrolment.

BKKY

- The scheme is intended to benefit farmers and their families of odisha.
- A family would comprise the head of the family, spouse and upto three dependents. The head of the family shall be a farmer.
- If the spouse of the head of the family is alive and living with the family, the spouse shall mandatorily be part of the beneficiary family unit.
- If the head of the family is absent at the time of the enrolment, the spouse shall be treated as the head of the family for the purpose of the BKKY.
- Stream-I : Coverage of meeting expenses of hospitalisation for medical and/or surgical procedures including maternity benefit and new born care, to the enrolled families for uptoRs. 30,000/- per family per year.
- Coverage for meeting expenses of hospitalisation for medical and/or surgical procedures to the enrolled families for uptoRs. 70,000/- per family per year on a floater basis. The RSBY beneficiaries are not eligible for coverage under BKKY streams –I.
- Stream –II : Coverage for meeting expenses of hospitalisation for medical and/or surgical procedures to the enrolled families for uptoRs. 70,000/- per family per year on a floater basis, subject to limits in any of the empanelled critical care providers across odisha and outside. All the RSBY beneficiaries families are eligible for coverage under BKKY Stream-II.
- In case of new policy, the Scheme shall commence operation from the 1st of the succeeding month and over on 30th April.

Gajapati District Disaster Management Plan-2022-23

- Sanction between **2 lakh to 3 Lakh** at Government level
- Sanction for more than **3 lakh** with approval of Hon'ble Chief Minister, Odisha

Where to get OSTF

- For **all Government Hospitals of the state and accredited private hospitals by the Govt.**

Nutritional Rehabilitation Centre

Management of the severely malnourished children does not require sophisticated facilities & equipments or highly qualified personnel. It does require that each child be treated with proper care & affection, and that each phase of treatment be carried out properly by approximately trained and dedicated health personnel. When this is done, the risk of death can be substantially reduced and the opportunity for full recovery greatly improved.

After treating the life-threatening problems in a hospital or in a residential care facility, the child with acute malnutrition will be transferred to NRC for intensive

Gajapati District Disaster Management Plan-2022-23

feeding to recover lost weight, development of emotional & physical stimulation, capacity building of the primary caregivers of the child with acute malnutrition through sustained counselling and continuous behavioral change activities. Thus NRC will be intended to function as a bridge between hospital & home care. Hence, NRC will be a short stay home for children with acute malnutrition along with the primary care givers.

Objectives:

- To provide institutional care for children with acute malnutrition.
- To promote physical, mental & social growth of children with acute malnutrition.
- To build capacity of primary care givers in the home based management of malnourished children.

District scenario

- A NRC is functioning at DHH, Paralakhemundi with bed strength 10

Services to be provided at NRC

- Treatment & Patient management.
- Nutritional support to inmates.
- Nutrition education to his/her family members.
- Other counseling services viz. Family planning, Better hygiene practices, Psycho-social care & development.
- Capacity building of the primary caregivers on Preparation of low cost nutritious diet from locally available food ingredients, Developing Feeding habits & time management in mothers, imparting knowledge of developing kitchen garden etc.
- Follow up Services

Model Citizens Charter for DHH; CHCs and PHCs

1. Preamble

District Headquarter Hospital; Community Health Centres and Primary Health Centres exist to provide health care to every citizen of India within the allocated resources and available facilities. The Charter seeks to provide a framework which enables citizens to know.

- What services are available?
- The quality of services they are entitled to.
- The means through which complaints regarding denial or poor qualities of services will be addressed.

2. Objectives

- To make available medical treatment and the related facilities for citizens.
- To provide appropriate advice, treatment and support that would help to cure the ailment to the extent medically possible.
- To ensure that treatment is best on well considered judgment, is timely and comprehensive and with the consent of the citizen being treated.
- To ensure you just awareness of the nature of the ailment, progress of treatment, duration of treatment and impact on their health and lives, and
- To redress any grievances in this regard.

3. Commitments of the Charter

- To provide access to available facilities without discrimination,
- To provide emergency care, if needed on reaching the CHC/ PHC
- To provide adequate number of notice boards detailing the location of all the facilities.
- To provide written information on diagnosis, treatment being administered.
- To record complaints and designate appropriate officer, who will respond at an appointed time, that may be same day in case of inpatients and the next day in case of out patients.

4. Component of service at CHCs

- access to CHCs and professional medical care to all
- making provision for emergency care after main treatment hour whenever needed and Informing users about available facilities, costs involved and requirements expected of them with regard to the treatment in clear and simple terms.

OFFICE SPECIFIC INFORMATION AS REGARDS TO (DDMP- 2017)

1. Class Rooms
2. Cyclone shed

That in order to combat the disaster, different primary Upper Primary High Schools and OAVs building can be used as a shed / Shelter for rescuing and keeping the affected people during such calamity disaster. That for their smooth staying without disruption a strategic / micro planning will be made block wise for its smooth management.

Social Welfare Section, Gajapati:

Social Welfare Section of Gajapati District is functioning in the Collectorate campus under Department of Women & Child Development department of Odisha with the following detail status:

The Department of Women and Child Development in Odisha was formed in the year 1994 as the nodal Department for implementing schemes related to the holistic Growth and Development of vulnerable sections of the populations. The department is dealing with schemes like ICDS, SABALA, MAMATA& PWDV ACT etc.

The Department has an extensive field structure with the District Social Welfare Officer (DSWO) and ADSWO heading the District unit and a sub-divisional Social Welfare Officer (SSWO), at the Sub – divisional level.

Further, programme implementation at the block level is jointly facilitated by the CDPO, Supervisors. Each project is divided into 9-10 sectors, each sector is headed by a Supervisor, who looks after 20-25 Anganwadi Centers (AWCs). Each Anganwadi Centers covers a population of about 800 in the non – tribal areas and 300 in the tribal areas and is run by an Anganwadi Worker (AWW) assisted by an Anganwadi Helper (AWH). Apart from these, services in the left out areas are provided

Gajapati District Disaster Management Plan-2022-23

by Mini Anganwadi Centers covering a population of 150-400 in tribal areas and 150-300 in the rural areas. As a whole there are 1451.

Social Security Section of Gajapati Background :

Social Security Section of Gajapati District is functioning in the Collectorate campus under Department of SSEPD Department of Odisha with the following detail status:

The Department of SSEPD has separately functioning at Govt level 01.07.2015 & office at District level has functioning 01.12.2015 before it was functioning under W & CD Department. Sri Rabindranath Behera, as Dist. Social Security Officer has posted since functioning of the Department i.e. from 01.12.2015. This department is dealing with Social Security Scheme i.e. Pension, NFBS, Scholarships scheme i.e. Banishree, Pre-Matric, Post-Matric, Top Class scholarship, Marriage Incentive, DRI Loan, IAY, Mo-Kudia, BBSA, National Trust.

The Department has an extensive field structure with the District Social Security Officer (DSSO) and SSSO Sub-Divisional Social Security Officer (SSSO), at the Sub – divisional level.

Further, programme implementation at the Block level alongwith ULBs level is jointly facilitated by a Block Social Security Officer, (BSSO) & Programme Assistant (PA).

WATER RESOURCES DEPARTMENT:

MINOR IRRIGATION SECTOR, GAJAPATI (M.I. Division, Gajapati Paralakhemundi)

The Minor Irrigation Sector (surface flow) in Gajapati has one division i.e. M.I Division Gajapati at Paralakhemundi and is looking after 154 nos of M.I Projects covering seven blocks of the district. There are M.I subdivisions at Paralakhemundi, Kashinagar & R. Udayagiri. 82 nos of MIPS are of reservoir/tank category and 72 numbers are of diversion weirs (DW). The designed ayacuts of the project is 22,556 Ha. Most of the projects were constructed during ex-Zamindari period and are very age old projects. The most prominent projects are Mahendranaya Anicut at Batisiripur (year of construction 1870), Ramsagar, Sitasagar, Krushnasagar, Gajapatisagar, Radhasagar and Krushnachandrasagar.

The repair and maintenance of all these projects are done as per necessity and as & when required. Renovation and reconstruction are also programmed under critical grant so as to ensure safe and smooth distribution of water supply during upcoming kharif season. From the learning of past phylin and hudhud this year also preparedness has been initiated to meet any disaster to come up. The following keyfactors have been programmed in connection with above preparedness:

1.The Mahendranaya diversion weir at batisiripur was repaired to safeguard the structure during heavy floods. The head regulators are intact. But some portion of the distribution systems always need special attention and panipanchayat of the

Gajapati District Disaster Management Plan-2022-23

system are being alerted for taking their help for effective maintenance and preparation during floods. With limited available staffs, the regulating structures both at Head Works and distribution system are being controlled and monitored. Sandbags and bamboo mats are kept ready at weak and critical zones in the distribution system for immediate closing of breaches as precautionary measures.

2. Similarly for other reservoirs and DW projects the available staffs are advised/instructed to be vigilant during heavy rains and flood like situations.

3. The weak or damaged structures of projects have been repaired or reconstructed during last two years and as such protection measures are also taken during this year.

4. Field staffs and panchayat under the direct supervision of the junior engineer/assistant engineers in seven numbers of MI sections have also trained during the heavy rainfall of last year regarding how to monitor the levels of water in the reservoirs according to falling of rainfall basing on forecast. This helped most reservoirs in hill areas giving protection from breach in dams and embankments. This year also the same practice like release of water through head regulators so as to lower the levels of reservoirs if forecast of heavy rainfall occurs etc has been done.

5. The gated structures of different diversion weirs are also programmed/planned to be kept vigil including protection at afflux bonds.

6. Like past few years the JE/AE at different sections and the assistant executive engineers at three MI subdivision are also alerted to be in close contact with BDOs of seven blocks of the districts so that in any case the block unit as a whole can be prepared and chalk out programmes to meet the emergency situations prior during and after any incidents. They are also advised not to leave the Head quarter without prior permission.

7. No rain gauge stations are there in vicinity of MI Projects Rainfall recorded in the block office is being taken into consideration. All the AEEs/AEs/JEs under this division has been instructed to report the daily rainfall data from 1st June to 15th October.

8. There is no flood control room so far Minor Irrigation, is concerned. However all AEEs/ AEs/ JEs are deployed with communication equipments for watch the flood situation.

As such, from the learning of past floods and situations during phyllin and hudhud, every possible precautionary measures have been planned to meet with and the field functionaries including JE/AE and Assistant Executive Engineers are instructed to remain vigilant and alert to meet the situation like heavy rain falls and floods and to work also in a team spirit under effective instructions/guidance by the district administrations as & when required. At the same time all the ongoing works are also programmed to be completed before onset of monsoon. No project under

Gajapati District Disaster Management Plan-2022-23

this division is in damaged condition. All the projects are providing irrigation to its ayacut area.

- Panchayat level Market Yard at Garabandha and Allada

Gajapati District Disaster Management Plan-2022-23

OFFICE OF THE DIVISIONAL FOREST OFFICER: PARALAKHEMUNDI DIVISION,
PARALAKHEMUNDI

(Proactive Disclosure)

Manual 1

Particulars of organization, functions and duties

[Section 4(1)(b)(i)]

1. Aims and objectives of the organization :

The main aim and objective for establishment of territorial Division at Paralakhemundi is (i) to protect the existing natural forests, (ii) management of forests (iii) to promote the degraded forests (iv) to implement the various scheme works for the upliftment of the public and standardize the income level of the rural poor etc. under management plan. To systemizing the objectives, forest department code 1979 has vital roll basing upon which this Division undertakes execution of works following the prescriptions of the working plan. The code has defined the scope of the functions of the Officers of the Forest Department in Orissa working under the administrative control of Forest & Environment Department. The rules under this code is complementary to those laid down in All India Service Manual, Orissa Service Code, Orissa General Financial Rules, Bihar and Orissa Account Code and Orissa Treasury Code. It also confers to apply the General Rules and Government Circulars as amended time to time to the business of the Forest Department unless specifically stated in this code. Besides, this code provides the duties and responsibilities of all the Officers of Forest Department and for implementation of the existing Acts & Rules made there under. The code is divided in V parts in XXVI Chapters. **Part I** describes on Constitution of State Forest, **Part II** confers on Kenduleaf Trade, **Part III** is meant for procedure of Accounts and forest produce stock, **Part IV** is Office Business and **Part V** refers other miscellaneous matters. The main objective of the Division to under take the execution of various forestry works based on the prescription of the Working Plan prepared for the Division. The working Plan of Paralakhemundi Division has been prepared by Smt. P.Mecro, I.F.S, the then W.P.O., Bhanjanagar, the period of the plan is for ten years from 2006-07 to 2015-16.

2. Mission / Vision :

The duties of the D.F.O rests for proper management of the forest business and the finance of the Division. He is to take an active part of all technical works subject to the prescription of the working plan and any direction he may receive from his superior officer. He will control the silviculture operations and to ensure correctness of all technical operations. Besides he is look the general management of the forest situated in his Division and poses direct control over the forest establishment employed therein. He requires implementing the transit rules and shall prevent illegal and illicit transit of forest produce from his division. He should also ensure for implementation all Acts. and Rules made there under various forest & Wildlife Acts.

Gajapati District Disaster Management Plan-2022-23

3. BRIEF HISTORY AND BACKGROUND FOR ITS ESTABLISHMENT :

The Office Establishment is functioning at Paralakhemundi with its headquarters at Paralakhemundi.. This Division is divided in to 7 Forest Ranges, 26 sections and 95 beats. Each Range is headed with one Range officer, sections are headed by Forest section Officers and Beat is functioned under a beat Officer i.e. Forest Guard. The following staffs are working in Division Office: The duties and responsibilities of all field functionaries i.e. Range Officers, Foresters &

Forest Guards has been enshrined under provision 29 to 36 in the Orissa Forest Department Code, 1979.

PARLAKHEMUNDI FOREST DIVISION AT A GLANCE

1. Creation of the Division : 15.11.1965
2. Total Geographical Area : 4552.0Sq.K.Ms
(a) Gajapati Dist. 4325 Sq.K.Ms.
(b) **Ganjam Dist. 227.0 Sq.K.Ms.**
3. Total Forest Area : Total 2528.93 Sq.K.Ms. Or 55.55% of total geographical area.(In two district)
(a) Gajapati Dist.1633.248 Sq.K.Ms.
(b) **Ganjam Dist. 33.421 Sq.K.Ms.**
4. Forest Area Classification
By Legal Status
 - (a) Reserved Forests : 447.17 Sq.K.Ms.
 - (b) Demarcated Protected Forests : 91.107 Sq.K.Ms.
 - (c) Un-demarcated Forests : 1102.34 Sq.K.Ms.
 - (d) P.R.F. : 26.04 Sq. K.Ms.
 - (e) Other Forest : 632.094 Sq. K.Ms.
5. Annual Rainfall : Normal: 1,323.56 mm Actual : 1,292.96 mm.
6. Number of Forest Ranges : 7(Seven) Territorial Ranges
7. Number of Forest Sections : 26 (Twenty six) sections
8. Number of Forest Beats : 95 (Ninety five) beats
8. Number of Forest Check Gates : 9 (Nine)
9. Number of Forest Roads : 16 (sixteen) =Kms. fsir wather roads :-
Range/Section/Beat wise geographical area of Pkd Division is furnished against each in organisation of Division.
10. Length of Forest Roads : 103.6 K.Ms.
11. Sanctuary : 1(One) Lakhari Valley Elephant Sanctuary In 1985
vide F.F. & A.H.Department
Year of Notification : Notification No.8F (W) 37/85-2333 dated
08.02.1985
Area of the Sanctuary : 174.95 Sq.K.Ms.
No. of Elephant available : 44 (Forty four) as per 2007 Elephant census.
13. Deer Park : 1(One) Taptapani Deer Park. Established on 05.10.1986
Inaugurated by the Hon'ble Chief Minister of Orissa .

1	2	3	4	5	6	7	8	9	10	11
Paralakhemundi	Gajapati	--	--	--	--	--	--	--	--	--

Important destinations / ecotourism spots of Paralakhemundi Division:-

1. Lakhari-Valley Sanctuary

Forest Division: Paralakhemundi (T) Forest Division

District: Gajapati bounding portion of Ganjam District.

Date of notification: 08 Feb. 1985,

Notified Area: 185.87sq.kms subsequently reduced to 174.95 Sq.kms.

This sanctuary is located in the district of Gajapati is rich with tropical mixed deciduous forest, hills, perennial water sources and a variety of wildlife such as Leopard, Porcupine, Pangolin, Giant Squirrel, Civet, Otter, Wolf, Peafowl, Parakeet, Owl, Myna, Heron, Hornbill, Hyena, Elephant, Deer, Sambar and a variety of birds and reptiles. This sanctuary can be approached from Berhampur, Taptapani (famous for its hot water spring) and Chandragiri. The sanctuary spreads over an area of around 175 sq.kms. the place has a tropical climate and receives a huge amount of rainfall each and every year.

2. Picturesque Mahendragiri hills (abode Lord Parsuram according to Hindu Mythology) is about 65KMs form Paralakhemundi. It is reach ecologically as well as lot of archaeological evidences. Gudguda Waterfall on Mahendratanya River is on the way.

3. Gandagati : A beautiful waterfall situated at about 30 KMs. form Paralakhemundi. There is the largest in Asia Budhist monastery have been constructed.

THEFT PRONE/ PROBLEMATIC AREAS OF PARALAKHEMUNDI FOREST DIVISION

The theft prone areas of Paralakhemundi Forest Division are as detailed below.

Name of the Range	Theft prone/ Problematic areas of the Range
1. Chandragiri	: Bhisimagiri, Phasiguda, Kandhadeuli, usapur, Babulibandha, Juanapalli, Dharamapur, Meghajoli, Kanchamali etc.
2. Mohana Range	: Panigonda
3. R.Udayagiri	: Podu cultivation is the main problem in this Range.
4. Mohendra	: Labanyagada, Gondahati, Koinpur, Kinchilingi, Muktapur.
5. Devagiri	: Gumma, Gaiba, Serango, Sara, Kasinagar etc.
6. Ramagiri	: Podu cultivation is the main problem in this Range.

Devagiri and Mohendra Ranges of this Division are adjoining to the inter state boundary of the Andhra Pradesh over a distance of 181 K.Ms. The villages of the border area are fully depending on the forests of this Division for their daily requirement of forest materials. Further the smugglers are also attracted to the valuable forests of the above three Ranges for their personal gain. They are entering into the forest with lethal arms and weapons with gang in the dead night. Similarly the forest area of Chandragiri and Mohana Range are adjoining to Ghumsur South Division are also theft prone areas.

MINOR FOREST PRODUCE (N.T.F.P)

The Government in their Resolution No.5503/F&E dated 31.03.2000 had vested in the Grampanchayats the authority to regulate the purchase procurement and trade in 68 (Sixty Eight) Minor Forest Produce brought to their respective territories.

As per instructions contained in 3(e) of the Resolution, the dealers registered by the Grampanchayats will have to furnish a monthly return to the concerned Range Officer indicating the item of M.F.P. procured, quantity procured and the Grampanchayat from which procurement was made during the month, but it is ascertain that non of the Traders have furnished the monthly returns before any of the Range officers of Paralakhemundi Division.

In this connection the Dist. Panchayat Officer, O/o the Collector, Gajapati requests vide this office memo No.3612 dated 29.6.2002 for obtain the monthly returns from concerned Sarapancha of Gramapanchayats. But non-of the returns has been received by the 35 undersigned till today. Due to non-receipt of the authorities are again reminded for submission of the returns.

Lakhary Valley Sanctuary

District Child Protection Unit (DCPU)

Introduction : The District Child Protection Unit (DCPU) aimed at building a protective environment for children in difficult circumstances, as well as other vulnerable children. The scheme would set up a child protection data management system to formulate and implement effective intervention strategies and monitor their outcomes. Regular evaluation of the programmes and structures would be conducted and course correction would be undertaken.

Objective : The DCPU shall coordinate and implement all child rights and protection activities at district level. Specific functions of the DCPU shall be to:

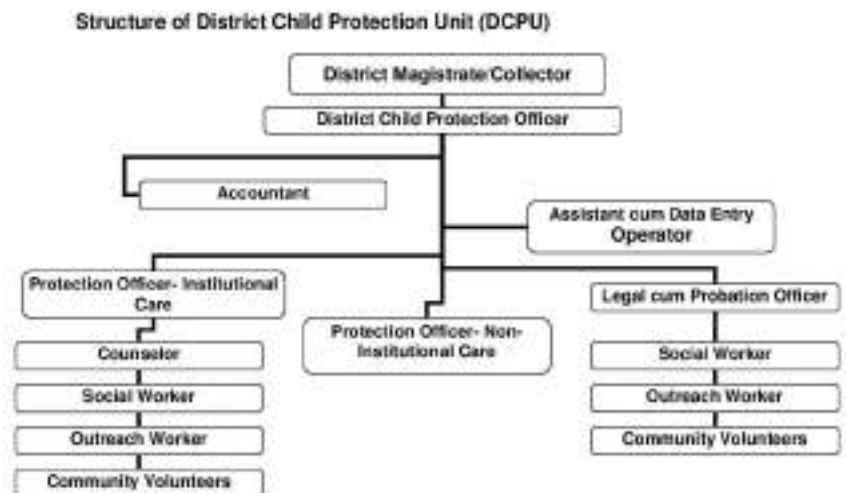

- (i) Contribute to effective implementation of child protection legislations, schemes and achievement of child protection goals laid out in the National Plan of Action for Children. In doing so, the DCPU will follow national and state priorities, rules and guidelines.
- (ii) Ensure that for each child in need of care there is an individual care plan and that the plan is regularly reviewed. Monitor the implementation of the plan.
- (iii) Identify families at risk and children in need of care and protection through effective networking and linkages with the ICDS functionaries, Specialized Adoption Agencies (SAA), NGOs dealing with child protection issues and local bodies, viz. PRIs and Urban Local Bodies, etc.;
- (iv) Assess the number of children in difficult circumstances and create district-specific databases to monitor trends and patterns of children in difficult circumstances;
- (v) Map all child related service providers and services at district for creating a resource directory;
- (vi) Identify and support credible voluntary organizations to implement program components of the ICPS;
- (vii) Support implementation of family based non-institutional services including sponsorship, foster care, adoption and after care;
- (viii) Ensure effective implementation of the Juvenile Justice (Care and Protection of Children) Act, 2000 and its Amendment Act, 2006 at district/city levels by supporting creation of adequate infrastructure, viz. setting up JJBs, CWCs, SJPU in each districts and homes in a cluster of districts as required;
- (ix) Ensure setting up of District, Block and Village level Child Protection Committees for effective implementation of programs, as well as discharge of its functions;
- (x) Facilitate transfer of children at all levels for either restoration to their families or placing the child in long or short-term rehabilitation through sponsorship, kinship care, in country adoption, foster care, inter-country adoption and placement in institutions;

Gajapati District Disaster Management Plan-2022-23

- (xi) Facilitate effective implementation of other legislations for child protection in the district, viz. Hindu Adoption and Maintenance Act (HAMA) 1956; Guardians and Wards Act (GAWA) 1890; Child Labour (Prohibition and Regulation) Act 1986; Child Marriage and Restraint Act 1979 and Immoral Traffic Prevention Act 1986, Pre-Conception and Pre-Natal Diagnostic Techniques (Prohibition of Sex Selection) Act 1994, Protection of children from Sexual Offence Act,2012, CPCRC Act,2005 etc. and any other Act that comes into force for protecting child rights;
- (xii) Network and coordinate with all government departments to build inter-sectoral linkages on child protection issues, including Departments of Health, Education, Social Welfare, Urban Basic Services, Backward Classes & Minorities, Youth Services, Police, Judiciary, Labour, State AIDS Control Society, among others;
- (xiii) Network and coordinate with voluntary and civil society organizations working in the field of child rights and protection;
- (xiv) Develop parameters and tools for effective monitoring and supervision of ICPS in the district;
- (xv) Supervise and monitor all institutions/agencies providing residential facilities to children in district;
- (xvi) Train and build capacity of all personnel (Government and Non-government) working under child protection system to provide effective services to children;
- (xvii) Encourage voluntary youth participation in child protection programs at district, block and community levels;
- (xviii) Organize quarterly meeting with all stakeholders at district level including Childline Services, SAA, superintendents of homes, NGOs and members of public to review the progress and achievement of child protection activities;
- (xix) Liaison with the SCPS, SARA and DCPUs of other districts;
- (xx) Provide secretarial support to the DCPC;
- (xxi) Maintain a database of all children in institutional care and non-institutional care at the district level. This Data Management System will ultimately be uploaded onto a comprehensive, integrated, live database for children in care and in need of care in the country- the 'TrackChild'.

Gajapati District Disaster Management Plan-2022-23

Structure of DCPU :

Activities :

1. Coordination with all line departments for ensure best interest of Children.
2. DCPU combating against trafficking with all structure of ICPS.
3. Organizing various training programmes for stakeholders of ICPS.
4. Creating awareness among public on Child Right & Child Protection.
5. Rehabilitation of Child Labour and strengning of their family.
6. Rehabilitation of POCSO victims & ensure legal action against accused.
7. Ensure for providing for compensation to POCSO victims.
8. Monitoring of Child Care Institutions (CCIs) to ensure standards of care and record keeping.
9. Vulnerable mapping of children.
10. Rehabilitation of children who were rescued from different vulnerble various places.
11. Formation of Different committee such as Village Level, Panchayt Level, Block Level & District Level Child Protection Committee.
12. Support ing and coordinating with all statutory body and service delivery structure of ICPS.
13. Providing Sponsorship Support to the children for health, nutrition and education.
14. Identified and linkage the adoptable children to Prospective Adoptable Parents with due legal procedure.

2. Existing Schemes / features of ICPS :

1. Biju Sisu Surakhya Yojana :

- a) Support for technical education towards admission, study material and other related expenses wherever not covered under the " Green Passage" Scheme of the Higher Education Department.
- b) Scholarship for meritorious students as recognition and encouragement.
- c) Financial support for Girl Child (Sukanya Samridhi Account).
- d) Marriage assistance.

2. Sponsorship :

a) Rehabilitative sponsorship : Children within institutions can also be restored to families with sponsorship assistance. On the basis of the Individual Care Plan, an institution shall approach the CWC/JJB to recommend a suitable case to DCPU for rehabilitation through the sponsorship fund.

b) Preventive Sponsorship : Sponsorship support will be provided to a family to enable a child to continue to remain in the family, continue his/her education. This is an effort towards preventing children from becoming destitute / vulnerable, running away, forced into child marriage, forced into child work etc.

3. Adoption : Adoption is a process through which a child who is permanently separated from biological parents because her/his parents have died, or have abandoned or surrendered her/him, becomes a legitimate child of a new set of parent(s) referred to as adoptive parents with all the rights, privileges and responsibilities that are attached to this relationship.

4. Rehabilitation of Child in need of Care and Protection (CNCP) Children : As per order of CWC who have required care and protection he/she can stay at Child Care Institutions.

5. Rehabilitation of Children Conflict with Law (CCL) Children : As per order of CWC the Children Conflict with Law (CCL) can be rehabilitated under existing facility of Government.

6. Victim compensation : Registration of victims under compensation scheme of District Legal Service Authority.

3. DCPU Staff details :

Rs. 1,200 per acre

Rs. 7,000 per acre

The total amount of the grant shall be subject to the condition that the grant shall be used for the purpose of the scheme and shall be used for the purpose of the scheme and shall be used for the purpose of the scheme.

The total amount of the grant shall be subject to the condition that the grant shall be used for the purpose of the scheme and shall be used for the purpose of the scheme.

Rs. 2,000 per acre

9. RE-CONSTRUCTION

(a) Amount of grant for reconstruction of damaged household property

(b) Amount of grant for reconstruction of damaged household property

(c) Amount of grant for reconstruction of damaged household property

(a) Amount of grant for reconstruction of damaged household property

(b) Amount of grant for reconstruction of damaged household property

(c) Amount of grant for reconstruction of damaged household property

(d) Amount of grant for reconstruction of damaged household property

Gajapati District Disaster Management Plan-2022-23

1		
2	Capacity building	<p>Expenditure to be borne by the Government of India (GOI) and the State Government (GO) and the State Executive Committee (SEC).</p> <p>The total expenditure of this plan should not exceed 1% of the annual budget of the State.</p>
3	State specific disaster within the local context of the State, which are not included in the national list of disasters should be included in the State Disaster Management Plan (SDMP) with a limit of 10% of the annual budget of the State.	<p>Expenditure to be borne by the Government of India (GOI) and the State Government (GO), as assessed by the State Executive Committee (SEC).</p> <p>The expenditure on this will be the same as in points 1 and 2 for the national disasters, as listed in column 1 in the annexure, but a total of 10% of assistance upto 1 lakh for the local disaster should not exceed the amount of SDMP.</p> <p>The expenditure to be applicable only when the State has formally listed the disaster. The inclusion of unaided equipment, tools and materials with a clear procedure for identification of the beneficiaries to be aided (with the consent of the State Government) with the approval of SEC.</p>
4	<p>By the State Government and the Government of India, that the assistance to be given should be given in the form of financial aid and not in the form of goods and services.</p> <p>The Government of India should give a limit of 10% of the total amount of the State Disaster Management Plan for the State Government to be used for the purpose of the plan in the State Government of India.</p>	

Illustrative list of activities identified as of an immediate nature.

1. Drinking Water Supply :
 - i) Repair of damaged platforms of hand pump/wing well / spring tapped chamber / public stand posts, etc., etc.
 - ii) Restoration of damaged stand posts including replacement of damaged pipe (repair with new pipe joints), clearing of clear water reservoir (to make it leak proof)
 - iii) Repair of damaged pumping machines, lenses, overhead reservoirs and water pumps including damaged intake structures, approximation/repairs
2. Roads
 - i) Filling up of breaches and rethrusting of pipe for creating waterways, repair and stone pitching of embankments
 - ii) Repair of damaged objects
 - iii) Proceeding decisions to be arranged/avoided on portions of bridges to restore immediate connectivity
 - iv) Temporary repair of approaches to bridge, embankments of bridges, repair of damaged maining bridges, repair of cutaways to restore immediate connect city, particular sub-structure (over damaged structural roads to restore traffic)
3. Irrigation :
 - i) Immediate repair of damaged canal structures and earth/retention works at banks and main reservoirs with the use of cement sand bags and bales.
 - ii) Repair of weak areas such as pipe/leakages in dam, canal embankments.
 - iii) Removal of vegetative material blocking intake/lets, silt, and and drainage system
 - iv) Repair of embankments of minor, medium and major irrigation etc.
4. Health :
 - i) Repair of damaged approach roads, buildings and electrical lines at PUC or community Health Centres
5. Community assets of Panchayat
 - i) Repair of village school/roads
 - ii) Removal of debris from drainage/ stormwater etc.
 - iii) Repair of internal water supply lines
 - iv) Repair of street lights.
 - v) Temporary repair of public works (school, bus, community hall, zoonusakh etc.)
6. Power Pole/ conductors and transformer (approx 10 %)

7. The assistance will be provided as a grant towards the following activities:

	Item of Expenditure	Source of assistance will be provided by
ii	Year-end primary school building	Source of assistance will be provided by non-subsidy grants upto Rs. 10 lakh/annum
	Higher secondary/ middle/ other and other educational institutions buildings	Not covered
iii	Primary Health Centre	upto Rs. 1.50 lakh/annum
iv	Health centre in villages	upto Rs. 500 per pole and Rs. 5000 per km
v	Barabagal (to) Anjanawadi Mahala, Marhal, Yavat Gosani, Gomantale etc.	upto 2.00 lakh/annum
vi	State Highway/Major District road	Rs. 1.00 lakh/annum
vii	Working with scheme	upto 5.00 lakh/annum
viii	Cooperative Sector	upto Rs. 1.50 lakh/scheme
	Minor irrigation scheme	Not covered
	Flora control and malaria eradication project	Not covered
ix	Hydro Power Project/ITP/ Irrigation system/ Irrigation and substation	Not covered
x	High school building (class to k)	Not covered
xi	State Govt. Buildings viz. Governmental office building, about rental, residential quarters, club house, structure, park, cinema, Co-op societies, play ground, Government property, school, school building etc.	Not covered
xii	Large scale irrigation and other works under the	Not covered
xiii	Any new works of long term nature	Not covered
xiv	Defeatment of arrears etc.	Not covered
		However, with the provision for assistance as & for arrears of the year of assistance administration.
xv	Free supply of agricultural machinery under PMKSSY	Not covered
xvi	National Highways	Not covered
xvii	Under special irrigation under PMKSSY	Not covered
		(Spec. CUI) under other expenditure items does not include schools.
		Not covered

* 100% of 2.5 lakhs are not provided by the State.
