Amendment to Para 3.5.19 (a) (b) of OPWD Code, Volume-I

After careful consideration, Government have been pleased to make amendment to Para-3.5.19 (a) (b) of the Odisha Public Works Department Code, Volume-I with the following modification.

"Security for the due fulfilment of a contract should invariably be taken. The security may be taken in shape of N.S.C./ Post Office Savings Bank Account / Post Office Time Deposit Account / Kisan Vikas Patra / Bank Guarantee in favour of the Divisional Officer from any Nationalized Scheduled Bank in India counter-guaranteed by its local Branch at Bhubaneswar / e-Bank Guarantee executed on the National e-Governance Services Limited (NeSL) Digital Document Execution Portal / Insurance Surety Bond issued by an Insurance Company authorized by the Insurance Regulatory and Development Authority of India (IRDAI). Such instruments shall be accepted towards Earnest Money Deposit (EMD), Initial Security Deposit, or any other security deposit from the contractor or supplier."

Amendment of Codal & Contractual Provisions.

After careful observation, Government has been pleased to abolish the extant provisions of threshold negative bid caps (14.99%) introduced in Appendix-IX, Clause 36 of OPWD Code Volume-II in the procurement of works undertaken by the Government of Odisha and its agencies to ensure the procurement process results in a viable and successful manner with adoption of the following incremental **Additional Performance Security (APS)** system:

1. Additional performance security shall be taken on an incremental basis from the selected bidder for low bid prices in project works as under:

I. Where the bid price is below 0% but not below 10% of the project cost put to bid, no additional performance guarantee/security is required.

II. Where the bid price is below 10% but not below 20% of the project cost put to bid, the additional performance guarantee/security percentage shall be incremented by 0.1% for every percentage of bid price below 10% of the project cost put to bid starting at 11%, with the additional bid performance guarantee being 0.1% and this additional performance guarantee percentage shall be applied on the bid price.

III. Where the bid price is 20% or more below the project cost put to bid, the additional performance guarantee percentage shall be incremented by 0.2% for every percentage of bid price below 20%, in addition to 1% of the bid price, and this additional performance guarantee percentage shall be applied on the bid price.

IV. The additional performance guarantee percentage shall be rounded off to the next lower percentage if the decimal point is below 0.5%, or to the next higher percentage if the decimal point is 0.5% or more.

V. The additional performance security shall be treated as part of the performance security.

VI. Justification for abnormally low bids shall be scrutinized by the Departmental Technical Committee and recommended to the competent authority of the Administrative Department for approval of the Additional Performance Security (APS). An abnormally low bid is one in which the bid price, in combination with other elements of the bid, appears so low that it raises material concerns about the bidder's capability to perform the contract at the offered price. Procuring Entity may seek written clarifications from the bidder, including detailed price analysis relating to scope, schedule, resource mobilization, allocation of risks and responsibilities, and any other requirements of the bid document. If, after evaluation, the bidder fails to demonstrate the capability to execute the work at the offered price, the Procuring Entity may reject the bid/proposal. However, it is not advisable to fix a normative percentage below the estimated cost that would automatically be considered as an abnormally low bid.
